FOREWORD

Take it, friend, and treasure it like gold; take this as a record of the year you spent at Tech in '25,—this volume of LAGNIAPPE is yours to keep.

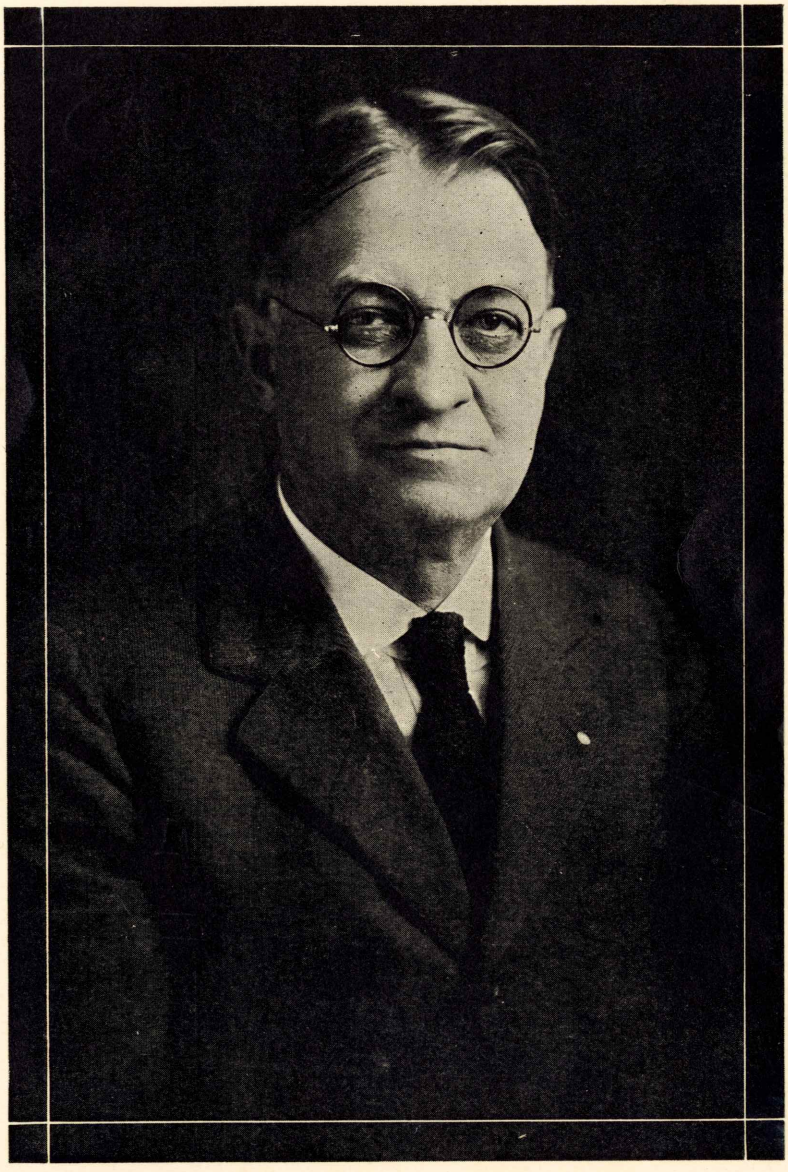

198671

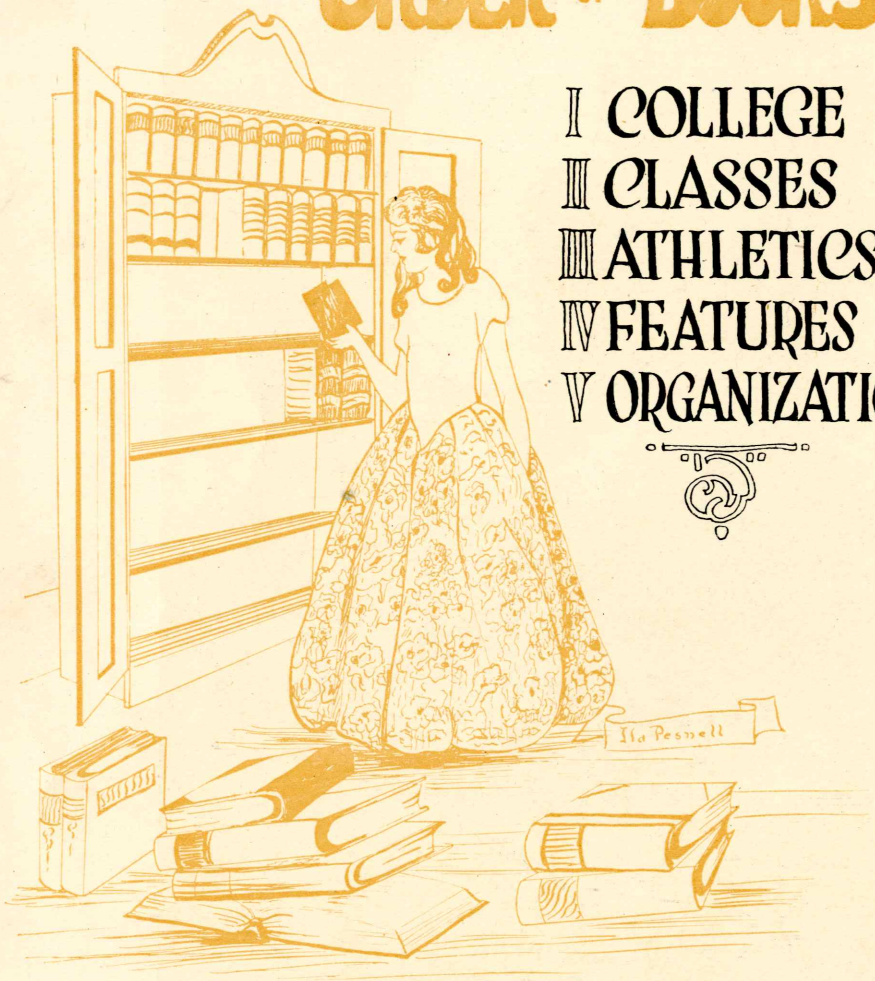

To

MR. J. E. JEENY,

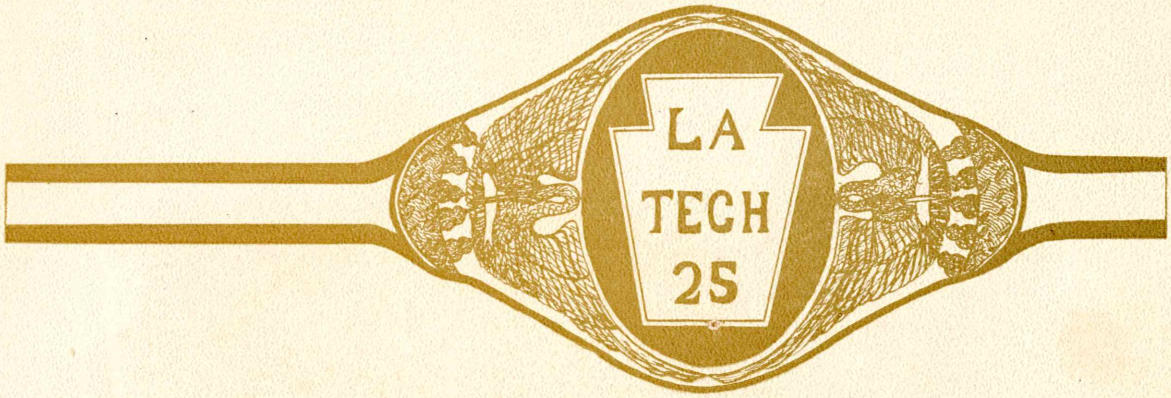

Who since 1908 has been our president; who has guided the success of our school in the right way; a man who has given the best that he has to the young people of North Louisiana. We, the 1925 LAGNIAPPE STAFF, take this opportunity to express our appreciation in a small way, of all that he has done for us and our fellow alumni.

OUR HISTORY

The Louisiana Polytechnic Institute is not old enough to enjoy the misty background of tradition out of which strange heroic stories grow; but from the very time of its creation people have been connected with it who have visions and have dreamed dreams. Those who have guided its destiny through the little more than a quarter of a century of its history have been people who have caught the spirit of the times, and have aspired always for it to maintain a place of first rank among the educational institutions of our State.

The school was created by an Act of the General Assembly in 1894. It was called the Industrial Institute and College of Louisiana. The Constitutional Convention of 1898, changed the name to the Louisiana Industrial Institute. The bill creating the school was proposed by Mr. G. M. Lomax, Representative from Lincoln Parish at that time. The other Lincoln Parish member of the General Assembly was Mr. J. T. M. Hancock, and it was largely through the efforts of these two men that the school was located at Ruston, at that time a town only ten years old, and of less than fifteen hundred people.

The first session began in September, 1895, with an enrollment of two hundred students and six teachers. Col. A. T. Prescott was president and also a member of the teaching staff. The school was conducted in a small two-story brick building and a small frame building for Mechanics. Two years later the first Commencement was celebrated, and Mr. Harry Howard was the first graduate. No one who has ever been graduated from the school has been more loyal nor more devoted in service to his Alma Mater than has Mr. Howard.

In 1898 a Girls' Dormitory was built, the faculty was increased from six to twelve, and the student body reached three hundred in number. At this time Col. Prescott resigned as president to accept a position in the Louisiana State University, and Prof. W. C. Robinson was elected to take his place. He served two years as president after which he resumed the chair of Mathematics, and Prof. James B. Aswell became president.

During the four years of Prof. Aswell's presidency, the school gained a wide reputation as a pioneer in industrial education in Louis-

iana. Both the student body and the faculty doubled in number, and two new buildings were added to the school plant. The Boys' Hall was built in 1901, and the Mechanics Building in 1904. In 1904, Prof. Aswell resigned to become State Superintendent of Education, and Dr. W. E. Taylor was made president.

For eight years Dr. Taylor had been connected with the school as Professor of Biology. He had endeared himself to all who knew him, because of his many excellent qualities of both mind and heart. He was honored for both his lovable character and his brilliant scholarship. He served two years as president when he was called to assume the leadership of Louisiana College, a Baptist institution being founded at that time in Pineville, Louisiana.

Mr. C. E. Byrd, of Shreveport, served as president during the session 1906-1907, after which he returned to Shreveport to resume his work as Superintendent of Education in Caddo Parish. It was then that Mr. Keeny came to assume the leadership of the school. His has been the only uninterrupted period of leadership that the school has known. During this time the institution has passed through many critical periods. It has experienced both joys and sorrows. It has had its moments of elation, and it has had its moments of despair.

In June, 1914, the school had its first sorrow, in the death of Prof. Carvill H. Carson. For fourteen years he had been associated with the institution as Professor of Physics and Chemistry. He was greatly loved by all who knew him. One could not sit in his classes five hours each week and not feel the influence of a great character. His ideals were as beautiful and as lofty as pictures in the sky. One could not help but be inspired by them, and one could not fail to get from them a vision of a greater service and a fuller life.

In the spring of 1914 war clouds gathered along the horizon, and the sound of arms was heard from distant shores. It was the beginning of a new epoch in the history of this institution. These halls began to echo to the sound of the bugle call, and to resound to the tramp of marching feet. These grounds were as a military camp, as our country's call was answered by both teacher and student volunteers. Col. Shattuck left Ruston in May, 1917, as Captain of Company F., and Major Prince left at the same time as Captain of Company of Supplies, both of the First Louisiana Infantry. Both of these companies were composed

almost entirely of boys from this institution, and both did service overseas. They were mobilized at Camp Beauregard and afterwards became a part of the 156th Regiment. Only a few weeks later Prof. R. J. Smith and Prof. R. C. Oliver volunteered for service in the Y.M.C.A. The school was represented in every branch of the service and in every department of the Red Cross. She has every reason to be proud of the part her sons and daughters played in the world conflict.

With the fall of 1920 a plan of development of a greater institution was inaugurated, and evidence was given that we could be as heroic in peace as we had been brave in war. The dreams of the founders of this institution had by this time developed into realities. The departments had been enlarged and strengthened, and the School of Education had been organized. New buildings had been added from time to time. In spite of poverty from lack of funds, the institution had been blest with wise, conscientious, and conservative leadership—a leadership that despaired not when it seemed there was no hope for the dawn of a brighter financial day. It had developed into a real college with the same entrance requirements as other colleges, and corresponding four-year courses leading to baccalaureate degrees.

While it had grown to these proportions it was still handicapped by the name "Industrial," and this great obstacle to its development was removed when the Constitutional Convention of 1921 changed the name to the Louisiana Polytechnic Institute. The first graduate of this great institution was Mr. Cecil Ready, who took his degree from the School of Engineering in June, 1921.

The Constitutional Convention of 1921 was of especial importance to the school, not only because it gave to it the proper name, but also because the attainment of this measure was brought about through the efforts of the graduates and former students of the school, who were members of that Convention. The resolution proposing the change of name was made by Hon. E. L. Walker, of the Class of 1913. Mr. Howard B. Warren, of the Class of 1899, was an outstanding figure in that Convention. The others, too numerous to mention, served faithfully in the cause of their Alma Mater, and Louisiana Tech can well be proud of her sons, who had a part in this important event in our State's history.

During the session 1922-1923, the school again heard the voice of Sorrow, in the death of Prof. J. G. Ray. He was a noble Christian gen-

tleman. He had been a member of the faculty for four years, and during that time we had come to know him and to love him, and to value him for his true worth. Only six months later our beloved Mr. Thatcher was called to his reward. Twenty-four years of the life of Prof. George O. Thatcher was given to this institution. He touched the lives of thousands of Louisiana's sons and daughters, and he left them better because of his teaching and his influence. He was the noble example of precision, of exactness, and of justness. As a memorial to him the Alumni Association maintains a scholarship known as the Thatcher Memorial Loan Fund.

While the school has had its sorrows its work has gone on. It has remained true of purpose and large of soul. Last year marked the twenty-seventh annual Commencement with the first graduate of the second generation, and the twenty-fifth anniversary of the Alumni Association. At that time the Alumni presented an historical pageant of the institution, and entertained Col. A. T. Prescott, the first president, as their guest.

The Alumni of the Louisiana Polytechnic Institute are proud of the place it occupies in the educational affairs of our State. They feel that they owe a standing moral obligation to the school that has fitted them for useful citizenship. The Alumni Association is an expression of that obligation. It is an expression of faith in their beloved Alma Mater. It is through the activities of this organization they endeavor to uphold her standards and to protect her honor, and to carry on for her welfare and her glory through faithful and devoted service.

AN ALUMNUS.

MISS HELEN GRAHAM, B. S.,
Dean, School of Home Economics.

MISS GLADA B. WALKER, B. A.,
Dean, School of Art.

HARRY HOWARD, B. I.,
Dean, School of Commerce.
Secretary-Treasurer and Manager Book Store.

H. D. WILSON, B. S.,
Dean, School of Music.

Candidate for B. S. Degree from School of Home Economics.

MAGGIE DELL MOORE.....Ruston, La.
Candidate for B. S. Degree from School of Home Economics.

IDA LOU NELSON.....Ruston, La.
Candidate for B. S. Degree from School of Home Economics.

KATIE NELSON.....Ruston, La.
Candidate for B. A. Degree from School of Education.

ALLEN A. SMITH.....Summerfield, La.
Candidate for B. A. Degree from School of Education.

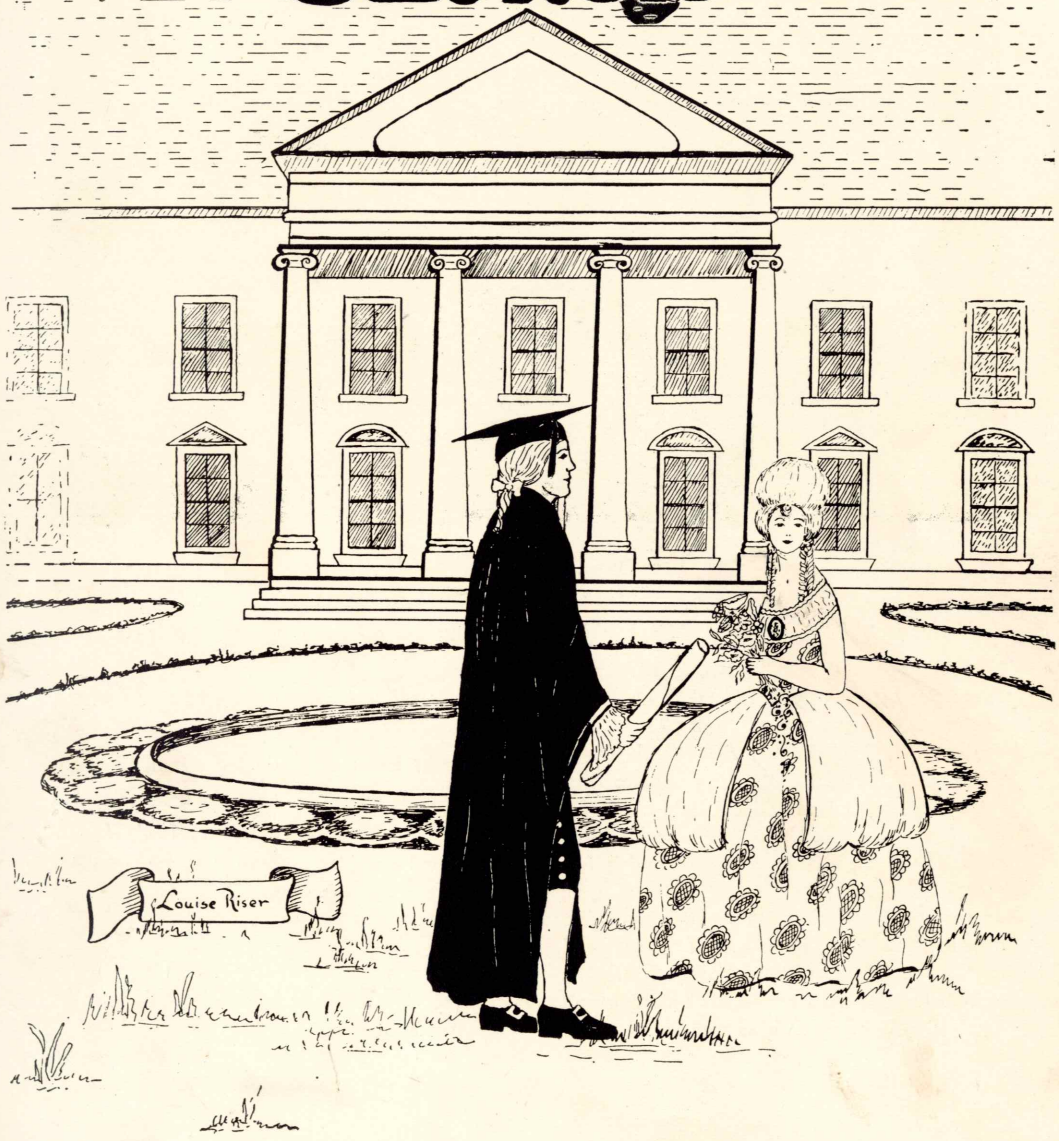

OLLIE VINING.....Floyd, La.
Candidate for B. A. Degree from School of Education.

A. W. WEYDERT.....St. Francisville, La.
Candidate for B. S. Degree from School of Engineering.

ALLEN R. WORKS.....Ruston, La.
Candidate for B. S. Degree from School of Commerce.

HUGH L. WORKS.....Ruston, La.
Candidate for B. A. Degree from School of Education.

SENIOR

ROBERT M. BASKIN.....Baskin, La.
Candidate for B. S. from School of Engineering

Football, Baseball, Track, A. O. Fraternity, Pres., Presbyterian S. S. Class; Y. M. C. A., Business Manager Spizz, Fall Term '24; Treas., C. & G. Club, '25; Pres., Soph. Class, Y. M. C. A.; Representative to Indianapolis.

Turn out the guard and the field music for here is the one, and the only one of his kind. He can steal a girl from any man, and is forever seeking new pastures. He, like Cupid, draweth a nasty bow. "Shackey's" prowess does not end here. He is a good student and one of the best liked men on the hill. His optimistic good nature, and his unfailing and highly developed sense have won us all.

VAUGHN W. BARBER.....Summerfield, La.
Candidate for B. A. from School of Education

Hats off to the little town of Summerfield. Only once in a great while does a community have the honor of producing a man like Barber. It is often said that the true test of a man's character is by virtue of his friendship, and surely no one can claim more friends than "Doc." His winning personality and sunny disposition have endeared him to everyone. Born for success, he seems with grace to win, with heart to hold, with shining gifts that take all eyes.

AMY BOND.....Ruston, La.
Candidate for B. A. from School of Music and Art

Glee Club, '21-'25; Pres. Glee Club, '24; Track, '23, '24; Class Musician, '24; Humorous Editor Spizz Fall, '24; Double-Mixed Quartet at L. T. A., Sec. Cap and Gown, Summer '24;; Pres., Cap and Gown, Spring '25; J. O. Y. S. S. Class, Editor Lagniappe, '25.

Amy is as steadfast and as dependable as the rock of Gibraltar. She is always bubbling over with vitality, and always sees the humorous aspect of any situation. Amy is known to practically every student on the campus, and is hailed as a jolly good girl wherever she goes. In our sojourn through life, we meet people passing by, and probably never think of them again; but here is one person that it is a pleasure to remember. We hate to lose her, but we are sure that we will hear from her in whatever profession she may make her life's work.

AUBREY W. CUMPTON.....Crew Lake, La.
Candidate for B. S. from School of Commerce

T. K. N. Fraternity, Cabinet Member Y. M. C. A., Member Baptist S. S., Band, '23-'24-'25; Orchestra, '24; Cap and Gown Club.

Aubrey accepts life as it is, and worry is not likely to leave its marks on his features. His ambitions lie in the business world, and his success as a student here leaves no doubt as to his future success as a business man. Here's to you, Aubrey; may your efforts be crowned with the success they deserve.

PHIL T. ELLIOTT.....Coushatta, La.
Candidate for B. S. Degree from School of Engineering

Z. A. K. Fraternity.

Our calm, cool Phil, whose smile is never lacking and is unexcelled in energy. Win or lose, he has the same old smile. He is a man, big-hearted, unselfish, and reliable. As a student he is envied and as a classmate he is admired; as a friend and pal he is true.

WINNIE D. SMITH EVANS.....Ruston, La.
Candidate for B. A. Degree in Pedagogy

After several years of successful teaching Winnie D. returned to Tech to get her degree. With her winning way she has become a friend to all. She is one of the hardest workers on the hill. The grades she made while here will justify to this statement. A student, a true friend, a lady of the qualities that assure her success.

T. M. GASKIN.....Vienna, La.
Candidate for B. S. Degree from School of Engineering

Selfishness is the greatest curse of the human race. Were we all as unselfish and as thoughtful of others as T. M. this world would be Utopian. His good nature, even temperament and ready wit have won for him a place in the hearts of all who know him. To his classmates he is linked by that closest of ties—friendship.

NINA GILL.....Ruston, La.
Candidate for B. S. in Home Economics

In the study of psychology we learn that individuals differ in temperament and characteristics. This is as it should be. No one would care to live in a world in which no human being was different from another. We have no better example of this than Nina. The frivolity which destroys so many precious moments seldom enters into her existence. She has found time to make a host of friends, who will miss her when she is gone.

KATHERINE HALE.....Ruston, La.
Candidate for B. A. Degree in Pedagogy

Cap and Gown Club.

As we go our separate ways we must thank Tech for bringing to us the friendship of such a girl as Katherine. Her not-to-be-forgotten personality will bring her success wherever she may go. She is just the kind of girl that will have a big Packard waiting for her at the pearly gates, while many others will ride in Fords in the opposite direction. We will miss but never forget you.

NORVIE HART.....Trees, La.
Candidate for B. A. Degree from School of Education

Charter Member of W. A. A., Associate Editor, '25 Lagniappe; Cap and Gown Club, Y. W. C. A., '22-'25; Methodist S. S. Class, '22-'25; Circulation Staff Spizz, Head of Hygiene W. A. A.

Norvie is a girl with little spoken and plenty thought. She works with a zeal that will some day bring victory. Tech has a right to be proud of her, for she has meant a great deal to the school, and her many friends she has gained while here. Success comes to those who work—true in heart and purpose.

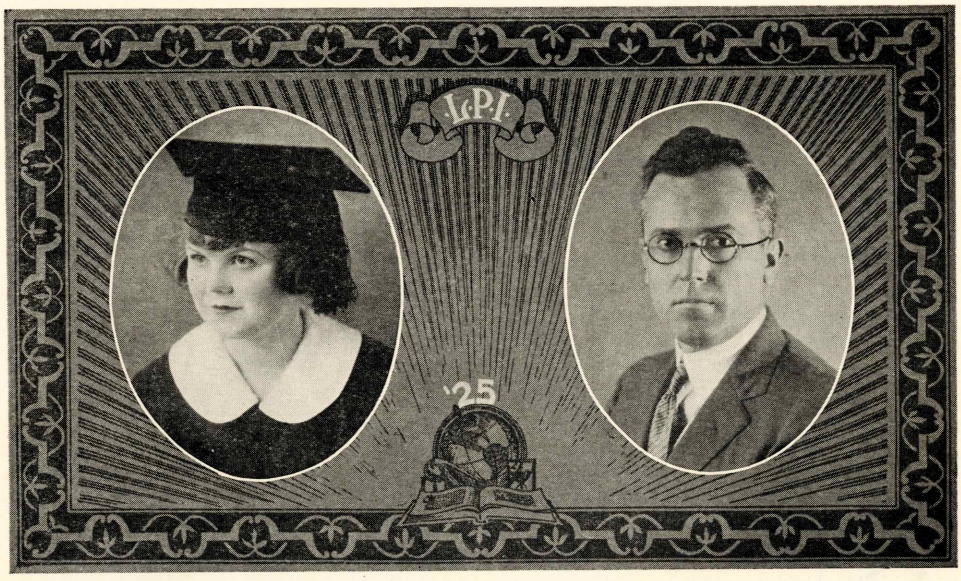

J. A. Hoge.....Tremont, La.
Candidate for B. S. Degree from School of Engineering

Treas. Y. M. C. A. '24; T. K. N. Fraternity, Vice-Pres. Cap and Gown Club '25; Assistant Editor Lagniappe '25.

If he is smiling, good natured, and conscientious—that's Gus. He is true blue, a true friend, a real man; and because of his character, personality, and ideals, we predict success for him.

J. T. Huey.....Ruston, La.
Candidate for B. S. Degree from School of Engineering

A quiet, hard working, unassuming man of sterling character. He is friendly, quiet and sincere. He is a fellow whose opinion must be asked before they are given. Furthermore, they are worth asking for. We like him and none of us doubt his making a success in life.

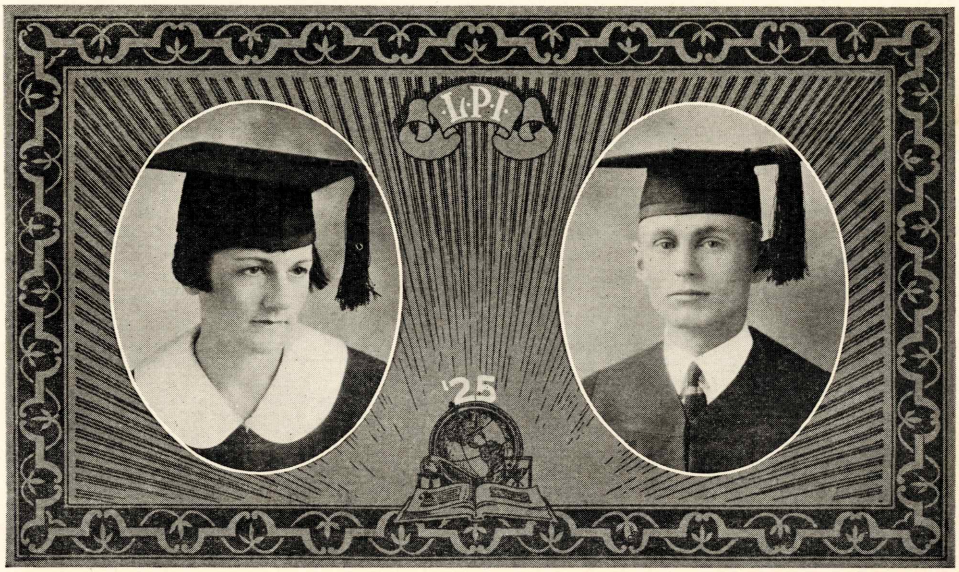

GERTRUDE JOHNSON.....Grant, La.
Candidate for B S. Degree in Home Economics

Sec., Baptist S. S., '23; Y. W. C. A., Cap and Gown Club, and Band, '22, '23.

"Friends, Romans, countrymen," this is Gertrude, the sweetest girl in seven states. No apology for the superlative, for we love her. We cannot boast of a more conscientious girl than "Johnie." Through life she will never want for friends for she has always extended a helping hand in time of need. Joy, honor and success will be yours.

OSCAR E. HUEY.....Pioneer, La.
Candidate for B. A. Degree from School of Education

Oscar came back to receive his degree after several years as a teacher in the high schools of North Louisiana. While a student here, with his ever-willing ways and his kindly smile, he made many friends who wish him success in the future.

MRS. MYRA CLINTON JONES.....Clay, La.
Candidate for B. A. Degree in School of Education

Myra is the only one of her kind in captivity. She always has a broad smile for everyone, and she can find conversational opportunities with any one at any time. She has been a full-fledged senior with high standing as a student of scholarship, and loyalty to old Tech.

V. L. MCMULLEN.....Dubach, La.
Candidate for B. S. Degree from School of Engineering

T. K. N. Fraternity, Y. M. C. A., '21-'22-'23; Wesley Bible Class, '21-'22-'23-'24; Treas., '21, Pres., '23, Cap and Gown Club, '23-'24; Band, '21-'22; Business Mgr, Lagniappe, '25.

It is not given to every man to see the silver lining in the clouds which often darken his horizon of life, nor does every man acknowledge that the universe was planned for good. That is where "Mac" gets more enjoyment out of life than most men, for he is above everything an optimist. "Mac" will never have to court success—she will come to him on the double.

ALLIEN MARSHALL.....Simsboro, La.
Candidate for B. A. Degree from School of Education

Allien is a queer combination of common sense, and the ability to squeeze everything out of a book that is in it. She is our ideal of democracy, and, with her ambition, sets fire to ours. To know Allien is to know the true American girl,—sensible, sensitive, and progressive.

PAULINE MARSHALL.....Simsboro, La.
Candidate for B. A. Degree from School of Education

Pauline, as well as her twin sister, is an asset to our school. For Pauline "Old Man Work" is a twin and buddy. She is not happy unless her whole mind and heart are on a searching expedition between the covers of a book. She is making a splendid record as a teacher.

VERA NELSON.....Ruston, La.
Candidate for B. S. Degree in Home Economics

Secretary, Baptist Sunday School, '21, '22; Spizz Reporter for Junior Class, '23; Glee Club, '20-'25.

Vera is a girl who will ever be remembered by those who were fortunate to become close friends with her. We know that her depth of personality, her true ideals and her sterling character will carry her far. We wish you every success in whatever you may go into.

ALICE NORRIS.....Choudrant, La.
Candidate for B. S. Degree in Home Economics

Deep in the recesses of the soul of every human being there lurks a spirit of dissatisfaction and despondency which, if cultivated, makes pessimists of us all. The strength of character necessary to overcome this adverse current of thought is rarely accorded an individual. But Alice is among the favored few, and her good humor and hearty laugh disperse the clouds of melancholy from her path and surroundings. We were lucky enough to have Alice with us as a teacher after she graduated from Tech.

CARRIE RAINES.....McDade, La.
Candidate for B. S. Degree in Home Economics

Y. W. C. A., Band, Cap and Gown Club.

Carrie came to us four years ago and has been diligently pursuing her course in Tech. In teaching Home Economics she will no doubt have success, for other students here have found it a difficult task to bring their work up to Carrie's along this line. She doesn't say much, but when she does, one can make sure that something worth hearing is spoken. May success be yours in the teaching profession.

MRS. EVELYN F. RISER.....Ruston, La.
Candidate for B. S. Degree in Home Economics

Evelyn has a unique college career. She stayed with us two years, then Cupid crossed her path and kept her away from us several years, but after that time she joined us again. Her greatest assets are a winning smile and a convincing line. She knows that she has a fenced back yard, and sympathetically inclined neighbors.

PAUL RISINGER.....Spearsville, La.

Candidate for B. S. Degree from School of Engineering

No trial too small, no test too large, asking help from no one, giving help to all, that is Paul. A deep thinker, a hard worker, but with a smile for all. Verily, this is the man.

MARY BESS RORERTS.....Ruston, La.

Candidate for B. A. Degree in Music

Music, Glee Club.

To Mary Bess class room and text books and teachers are robbers of the very joys of living. The call of a dreamy waltz or the purring of a big car is her real music of life and can blur any next day's assignments. She lends a big interest in music, which she aspires to make her life work. Mary Bess is a lovable classmate. We appreciate your unselfish service and will long remember you for your music.

ELSIE SUTTON.....Ruston, La.
Candidate for B. S. Degree in Home Economics

Baptist Tech Class, '22, '23; Spizz Staff, '23; Spizz Editor, '23, '24; Lagniappe Staff, '23; Cap and Gown Club, '23, '24.

Some four years ago Elsie entered our class. We little guessed at that time what a distinguished personage this individual was to become. Time, of course, was the only thing that could tell the tale. Never a worthy happening took place, but that Elsie had a prominent part in it. Her work at Tech speaks for her life's best in her future career.

KATHLEEN TRAMMELL.....Dubach, La.
Candidate for B. S. Degree in Home Economics

Kathleen is a girl who holds the individual qualities of steadiness, consistency, and thoughtfulness. When the test is put to her she will test the genuine, sound, 14-karat lady. We prophesy for her rows of granite pans, gleamingly white, and pigs, and chickens, and a dairy house.

GLADYS WEST.....Bunkie, La.
Candidate for B. S. Degree in Home Economics

A twinkling optimist. She chatters on incessantly and delightfully. She does many things well, and even captivates the hearts of nice, tall men. Gladys is always free from worry, and always gets results. We are confident with all these good qualities she will make her mark in future life.

MRS. DORA MAE HUEY HENDERSON, Pioneer, La
Candidate for B. S. Degree in Home Economics

Dora Mae did not spend four successive years with us, for Cupid's net entangled her. However, she joined us last year, and we were so glad to have her with us. She is the kind of a girl that is capable of mixing love and business with pleasure, as she has demonstrated this at school.

JAMES ALLEN NORRIS.....Choudrant, La.
Candidate for B. S. Degree from School of Commerce

A loyal acquaintance, one whom anyone would be proud to claim as a friend. His cheerfulness and individuality are marked proofs of his genuine personality. His carefree manner and his unselfishness have made for him many friends who will ever cherish his friendship in the days to come.

Book III

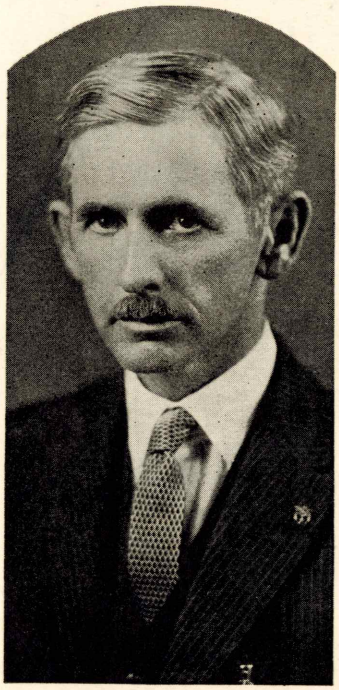

Athletics

Philip H. Arbuckle, head coach, was with us for the first season, this year. Previous to this year he was coach at Rice Institute for twelve years. He turned out a clean, hard-fighting team, not winners of high scores but real men.

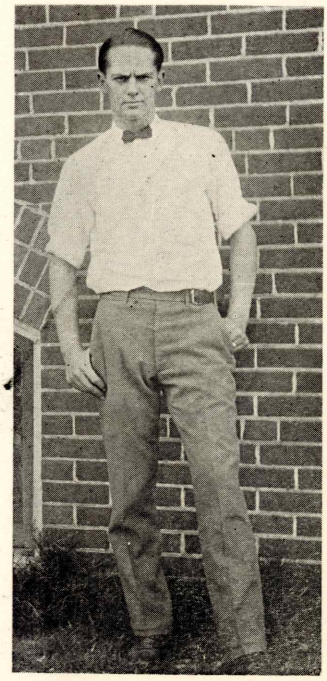

Major P. S. Prince has been a capable manager. He has always provided us with well-balanced schedules, and has managed the athletic activities well. The boys have also received some excellent training in "gym" under his supervision.

Coming to Tech with an excellent record as a player and experience at coaching, Assistant Coach John A. Wight proved to be a valuable assistant to Coach Arbuckle. He had charge of the track and baseball and proved to be a capable coach.

Dr. Pankey, who has been with us for many years, is still to be seen at every game, ready to respond, at a moment's notice to any call that may come from the field.

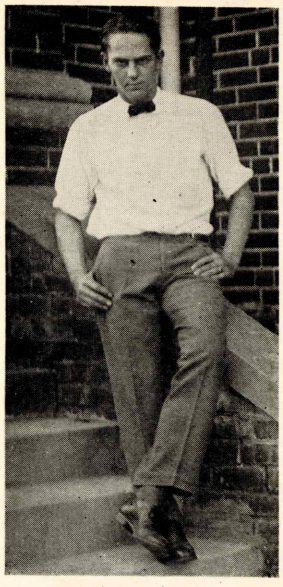

Jack Bagwell, as assistant manager, has held his position well, even in New Orleans. He has been on the job continually. He coached a basketball team, selected from the gym squad, which played some games with school teams in this part of the state.

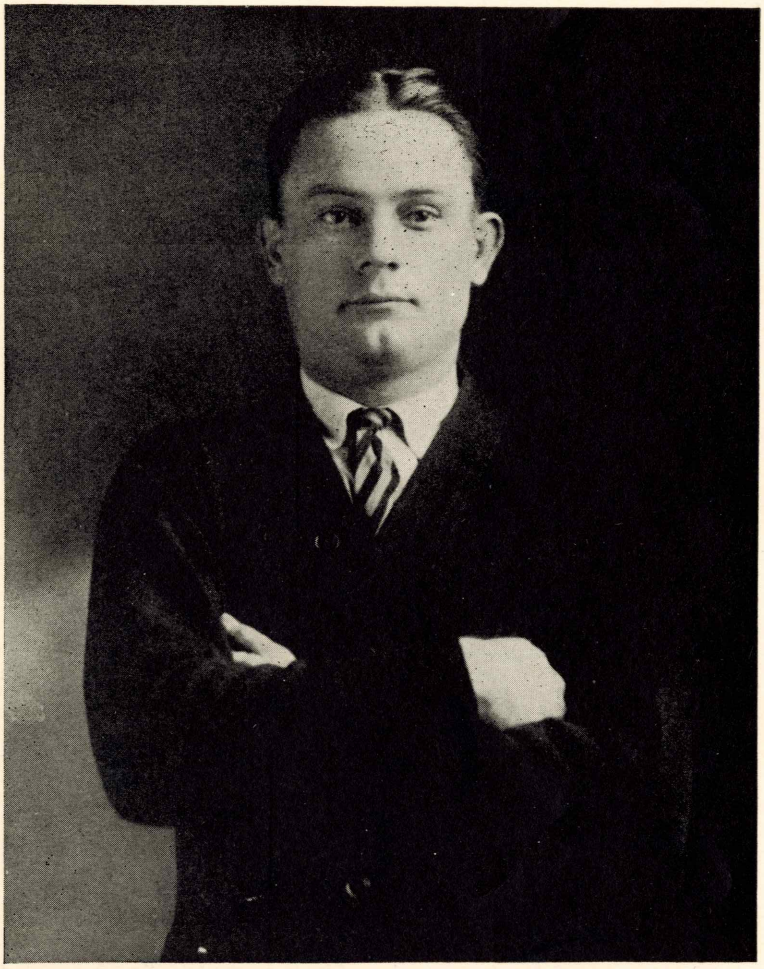

Although Charley and "Red" have had little experience as Cheer Leaders, they succeeded in extracting some yells out of the student body on the side lines. The team was well supported in the way of encouragement from the side lines under the leadership of this "peppy pair."

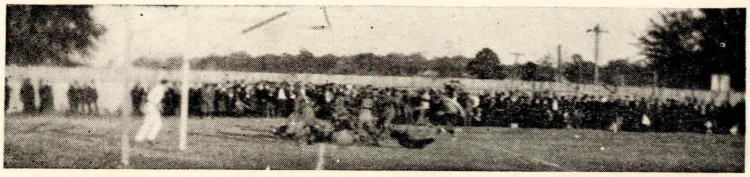

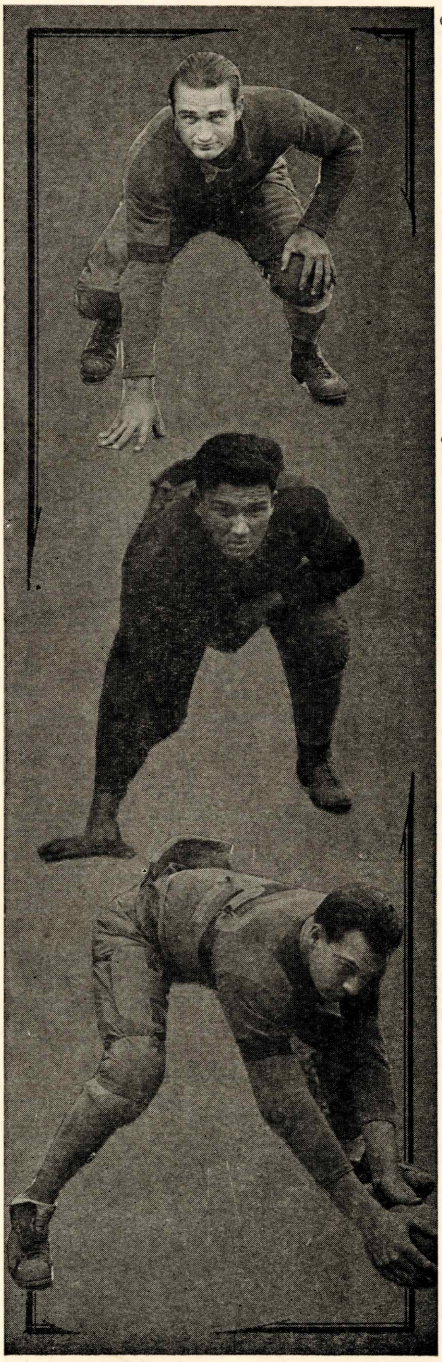

CAPTAIN OTIS REED

Was with us in his last football game, having made the varsity four years. He has played the game all the time with very few substitutions throughout the entire four years. He is a swift back and end, hard hitter, and carried the ball for many gains.

GEORGE "BLUE" HOGG

Is good on the offense, playing in the back field. This is his second year on the varsity and he will be a good man for the next season.

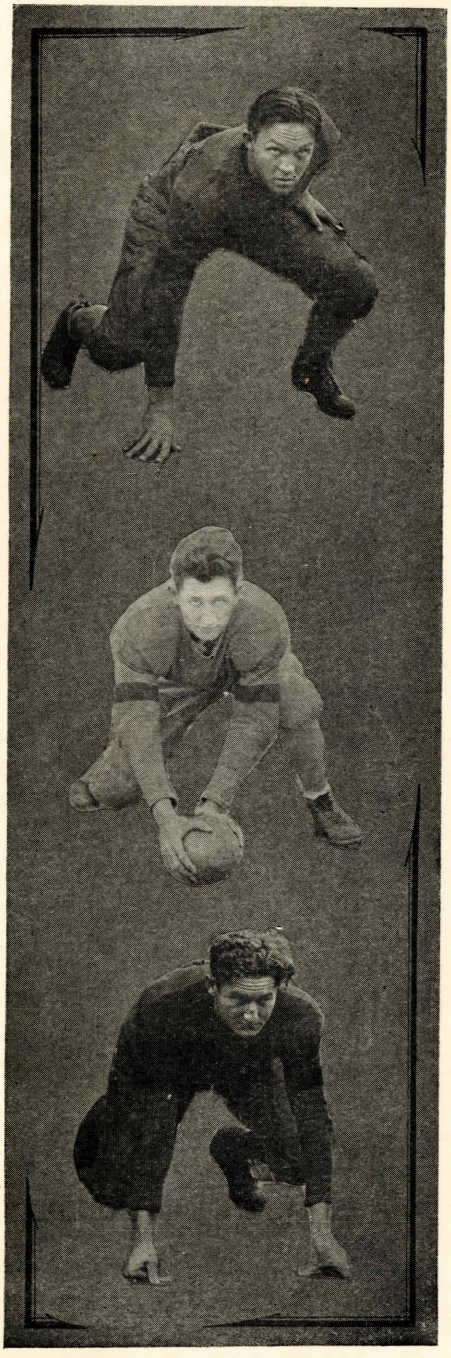

PAUL PHILLIPS

Fills a large space in the line, and gets better all the time. Will be in good shape next year, as this is his first year on the varsity, having played scrub ball last year.

VINCENT "SQUATTY" WHATLEY

Played two years as scrub center and has come out as a varsity man. His height makes punting and passing hard for the opposing teams.

RALPH TALBOT

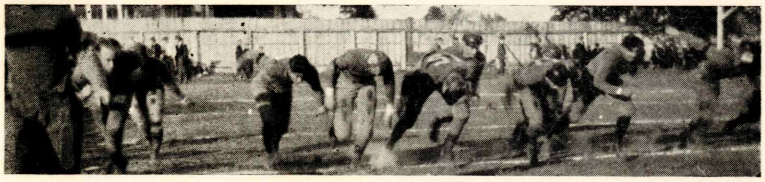

Played the game as a tackle. This is his second year on the squad. Has stopped men who were much heavier than himself.

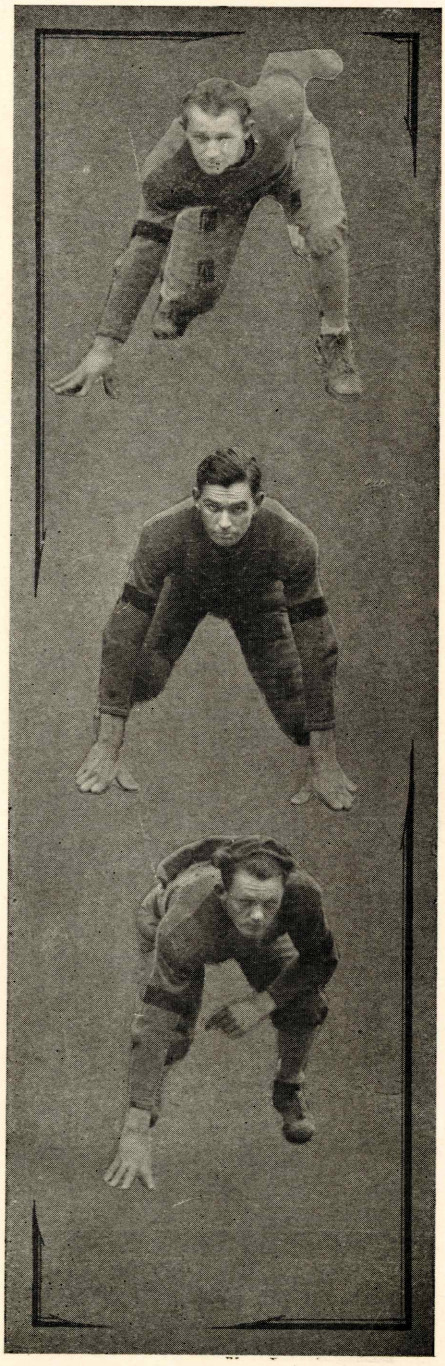

W. O. W. PANKEY

Is good on defense; although he is light he is a hard fighter. He played scrub ball last year.

ROYAL L. FRANKS

Was a four-year man from prep school in Arkansas, made the varsity this season through his fighting ability. He plays in the line and plays it well.

JIMMIE THOMPSON

Played equally well at end and center. A good lineman with the bulldog spirit. Made the varsity in '22 and '24.

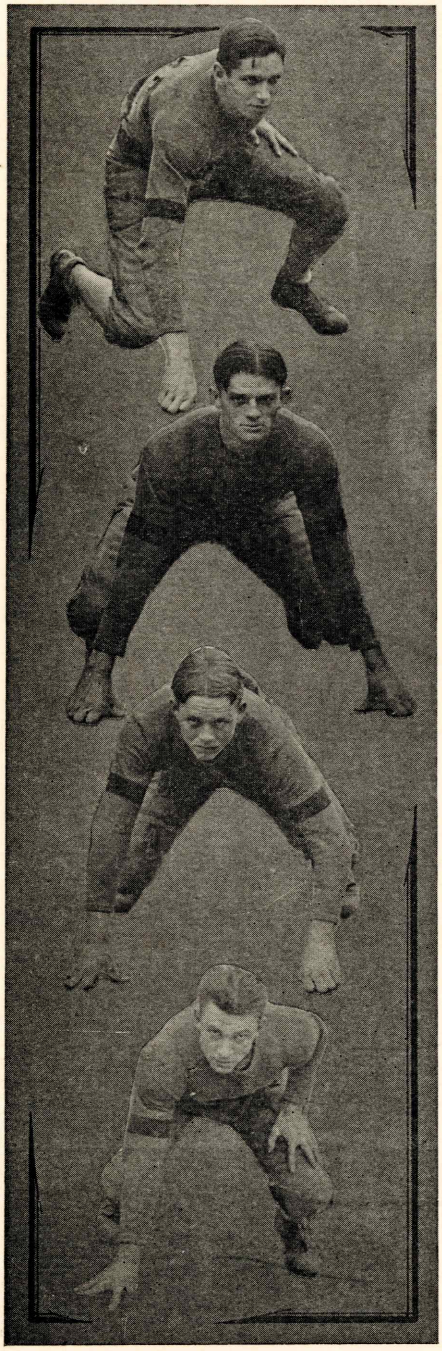

HARRY TELFORD

An old Junction City High star. played scrub ball last year. This year he made a position in the line and played it well.

"BILL" FULLERTON

Is with us for the first year, having hailed from a strong high school team of last year. He made good as a back-field man in the varsity lineup this year.

JIM "SLIM" YELDELL

A hard-fighting lineman who played high school ball last year. He will be a good man for Tech for next year.

MACK COUSINS

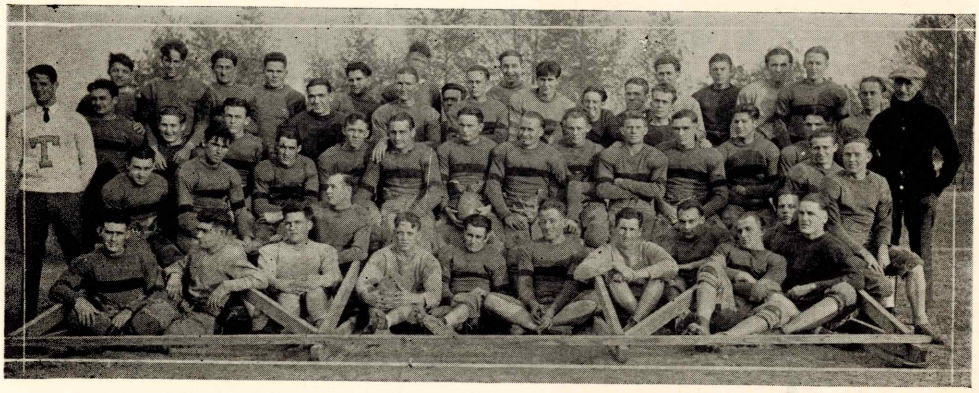

Is a dependable, fighting guard who has made the varsity team three years. Even if he is light he stops the best of his opponents.

HARLEY BOSS

A high school star of last year, who plays the game in the back field. He is a good passer, and will make a good man next year. He was out of the game the latter part of the season on account of a bad arm.

"BILL" COVINGTON

"Full of ideas," good on returning punts, and is a fast quarterback. This is his first year at Tech and he played the game as leader of the squad well.

With one victory, one tie game, and six defeats, the 1924 season was one of the hardest fought in years. The new coach, with an almost entirely new team who had never played together and some who knew very little about football, made a fast, hard-fighting team with no surplus weight to brag about.

The first game ended in a 0-0 tie with the Louisiana College Wildcats. The game was played on the home field.

Our next game was with Tulane in New Orleans, who defeated the Bulldogs by a score of 42-12.

Although Tech was defeated 9-0 by Dallas University, they played a real game.

Tech won her first game by a score of 12-0 over Little Rock College. Passes were the feature of the game.

Next the Bulldogs visited the Lone Star State and met the St. Edwards Saints, who won by a score of 28-12.

Tech was again defeated by the Southwestern Bulldoggs of Lafayette by a score of 28-13.

The last game of the season was played in New Orleans with the Loyola team, who defeated Tech 34-0.

The scores seem to be somewhat one-sided, but Tech had a real hard fighting team, and from all indications will have a stronger one next year.

The 1925 schedule is as follows:

Sept. 26—Henderson Brown, Ruston.
Oct. 3—Mississippi College, Clenton.
Oct. 9—Henderson Brown, Ruston.
Oct. 17—Millsaps, Ruston.
Oct. 24—Louisiana College, Pineville.
Oct. 30—Ouachita College, El Dorado.
Nov. 7—Tulane, New Orleans.
Nov. 14—Southwestern, Ruston.
Nov. 26—Camp Benning Officers' School, Benning, Ga.

For the first time in several years the Bullpups had some real games of their own. Their first game was with Lisbon High in Lisbon. The game was hard fought from start to finish and some good plays were pulled on both sides. The only score made came in the last quarter, when the Bullpups scored on a thirty-five-yard drop kick.

The next game was played on the home field with the team of Jonesboro High. Both teams played a good game but the "pups" let the visitors get away with the larger side of a 14-to-7 score.

The rest of the Bullpups' time was spent in bucking against the varsity, getting them in shape for the games that they were to play.

Just watch the "pups" go. Some day they will be real Bulldogs and show the same fighting spirit that they showed against these high school teams.

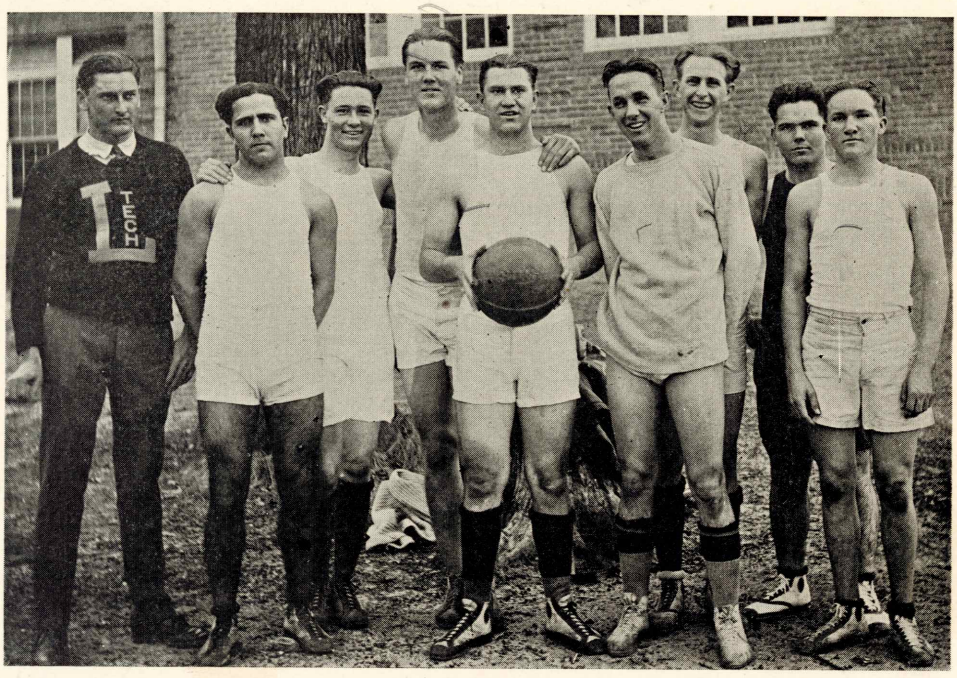

The boys residing in the dormitory are required to participate in some form of athletics, so for those who do not play football or baseball a director is provided who gives the boys a drill in sitting up exercises or allows them to play the interesting game of indoor baseball or basketball.

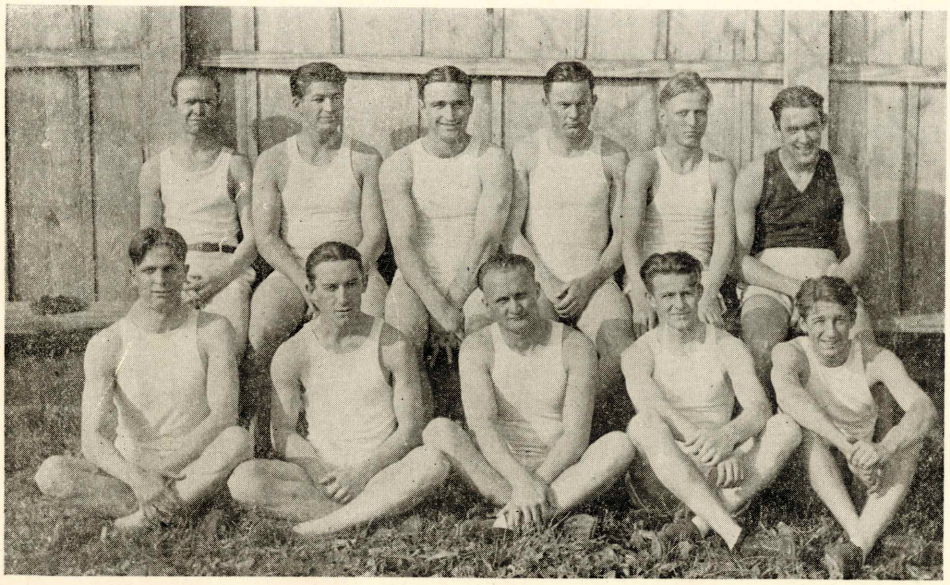

The exercises this term were under the leadership of Mr. W. R. Cline, who is giving the boys a thorough drill each day.

The indoor baseball is under the leadership of W. H. Beck.

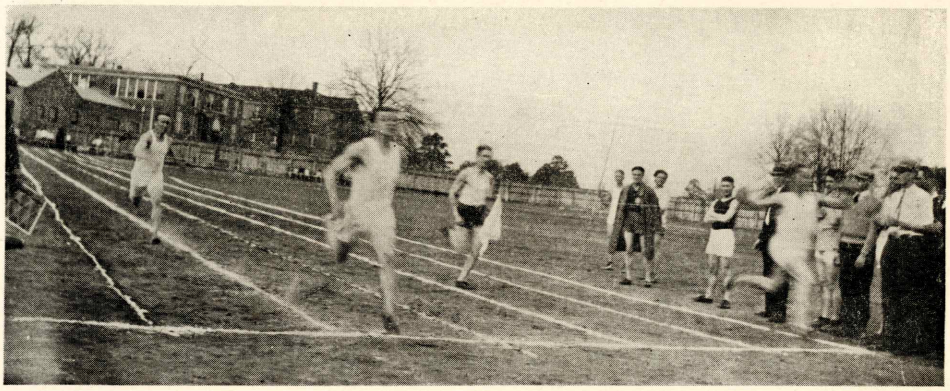

The basketball team which was picked from the gym squad received some very valuable practice with Jack Bagwell as coach. They played several match games, winning most all that they played. Some of the boys proved to be real basketball players and with the right coaching Tech could develop a basketball team equal to most any school of her size.

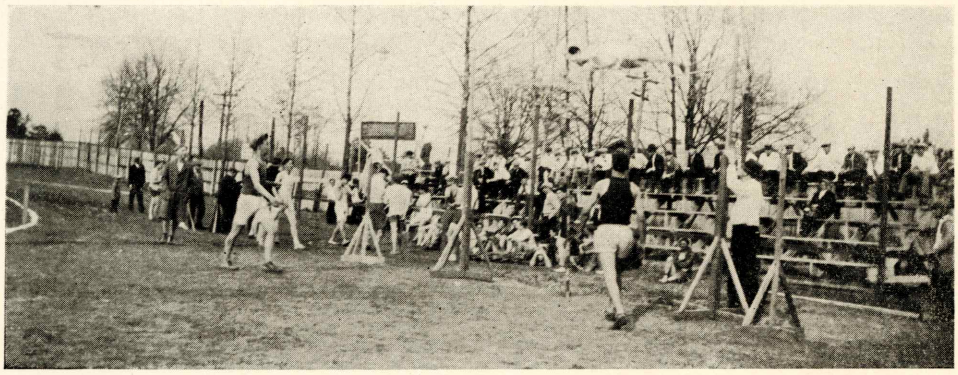

Men taking track were given regular workouts daily in all forms of track events under the direction of Coach Wight. At the end of the season a meet was held between the freshmen and old men in which the freshmen were defeated by a score of 53 to 37. No meet was entered into with any other school this year but a good track team is expected for next year which will be allowed to enter intercollegiate meets.

The Tech baseball team this year has had some real coaching under Coach Wight, who has developed one of the hardest-hitting teams in this section. For the first time the freshmen have had a team and have played several games with high school teams and with freshmen teams of other colleges. They promise to make a strong team for Tech next year. The weakest side of the Tech team this year is the pitching staff. The schedule for this season was harder than previous schedules and some real games have been played.

May 21, 22, 23	—L. S. U., Ruston.
May 28, 29, 30	—College of Ozarks, Ruston.

GIRLS' GYM

Physical exercise is beneficial, not only from the standpoint of physical development and improvement of health, but from the psychological value that it possesses as well. Mention of a few of the direct benefits will serve to establish the worthiness of gym without reference to the indirect benefits derived.

Gym consists of corrective exercises, including: marching, aesthetic dancing, and the different sports in their seasons. This year competition has prevailed between the Freshmen and Sophomore classes. Diligent practice enabled the Freshmen to carry off the honors in volley-ball, but the Sophomores retaliated by winning the basketball championship. Deep interest has prevailed, and strict rules of practice

have been diligently adhered to, thereby bringing out many athletes, and forcing upon the athletes themselves the realization of their capacities. All of the contestants learned much about both of these sports, and much difficulty was experienced in selecting the varsity teams.

Group aesthetic dances that were used in the pageant given by the Physical Education Department for the rally visitors and contestants, under the direction of Miss Arnold, held the interest of most of the girls for a while, and in the meantime those not interested in the pageant played tennis.

W. A. A.

The Women's Athletic Association has already celebrated its second anniversary, and during that time much has been accomplished. The membership of the club has grown from twenty charter members to sixty active members. Entrance in this organization is gained by making varsity teams in any of the sports that are offered in gym: volley-ball, basketball, tennis, track, and baseball. Also, many of the girls are near the goal of one thousand points necessary for gaining the letter "T", which makes them members of Tech Club.

Last year W. A. A. sponsored the entrance of L. P. I. in the National Women's Telegraphic Track Meet, in which we placed seventh out of the many colleges entered. We are expecting to do even better this year.

Another thing which was a great success, was our W. A. A. Circus given to entertain the freshmen. Everybody came dressed as little girls and boys, and a merry time was enjoyed.

W. A. A. was represented at the National Conference, by our director, Miss Edna Arnold, who organized the association and has helped create a love of sports among the girls.

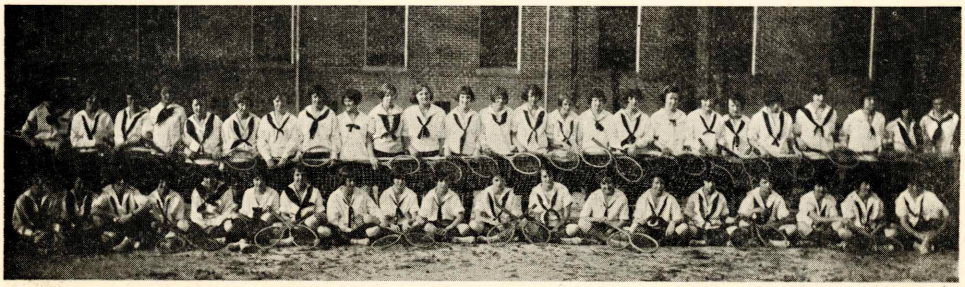

All the girls enjoy gym, and enjoy taking it, and consider it a great honor when they become an eligible member. We have as our purpose the promotion of athletics, the creation of a love of sports, and the fostering of good sportsmanship.

Now spring comes, bringing with it track and baseball. Last year L. P. I. played sixth in the National Telegraphic Track Meet held between the different colleges in the United States. This year we expect to do as well or better.

At the end of the year several girls will have earned letters in athletics, which goes to show the increased interest in gym. Honesty, fair play, and friendship are some of the virtues inculcated into the character of the girls through gym.

BAPTIST SUNDAY SCHOOL CLASS

Under the able leadership of Rev. J. C. Robinson, pastor of the First Baptist Church, the L. P. I. class, has endeavored to perpetuate the true religious spirit of the Louisiana Tech. students. This class has done much to help the new students adjust themselves to the strange surroundings. It has helped the old students realize that their religious obligations should not end when they leave their mother church, but become even greater, in that they have a wider individual field in which to wield their influence for good. The motto, "You bring the one next to you, and I'll bring the one next to me," has proven a very successful one, which helps to keep alive the true spirit of brotherhood.

The Louisiana Polytechnic Institute is represented in three classes in the Young People's Department of the Methodist Sunday School in the city of Ruston.

The Wesley Bible Class is under the able leadership of Mr. W. Poole Robison. The J. O. Y. Class is making a special study of the literature of the Hebrew people, under the direction of Mrs. Savery Lewis. Mrs. R. D. Glover has charge of the Teacher-Training Class in Bible History. Each of the three classes has a large enrollment and good regular attendance.

The Executive Staff of the department is as follows:

Superintendent Mrs. W. Floyd Pearce
President Allen Givens
Vice President Lily Hooper
Secretary-Treasurer Vera Clingen
Pianist Hazel Walker

The Alumni Association of Louisiana Tech is a live, growing organization. It hopes to be a worth-while factor in the life of our Alma Mater. Its purpose is to serve,—serve others. The success it attains in carrying out this purpose is measured or limited by the support the alumni give it. It deserves a loyal and generous support from every member.

The association is attempting to do one big thing. That thing is to get every alumnus to subscribe to the Thatcher Memorial Loan Fund. The first goal it is striving to reach is five thousand dollars by commencement in 1927. It can be done with ease if every member will do his duty.

This fund will lend money at a low rate of interest to deserving and ambitious young men and women who have completed the first two years of a college course and who could not otherwise obtain a degree at Tech. It will be administered by a loan committee appointed by the association and under rules and regulations prescribed by it.

The fund is raised by voluntary subscriptions or donations from the Tech Alumni. The annual dues are $2.50. Life membership dues are $25.00. This amount may be paid in one payment, or it may be paid in five annual payments of $5.00 each. If paid annually, the whole must be paid within six years of the date of the first payment. All the money derived from the life membership dues goes into the loan fund. That derived from the annual dues goes into the general funds of the association and may be used for any legitimate purpose.

A certificate suitable for framing will be issued to life members and their names will be placed upon the Honor Roll of the association. A large number of loyal and generous alumni have already made their subscriptions for life certificates.

This loan fund is a monument to a great and beloved teacher, the late Professor George O. Thatcher. It is not noble only because of the one it commemorates, but because of the effect it will have in uplifting character and in the training of the minds of our youth—in making citizenship of the highest type.

Let's say with Paul of old: "This one thing I do."

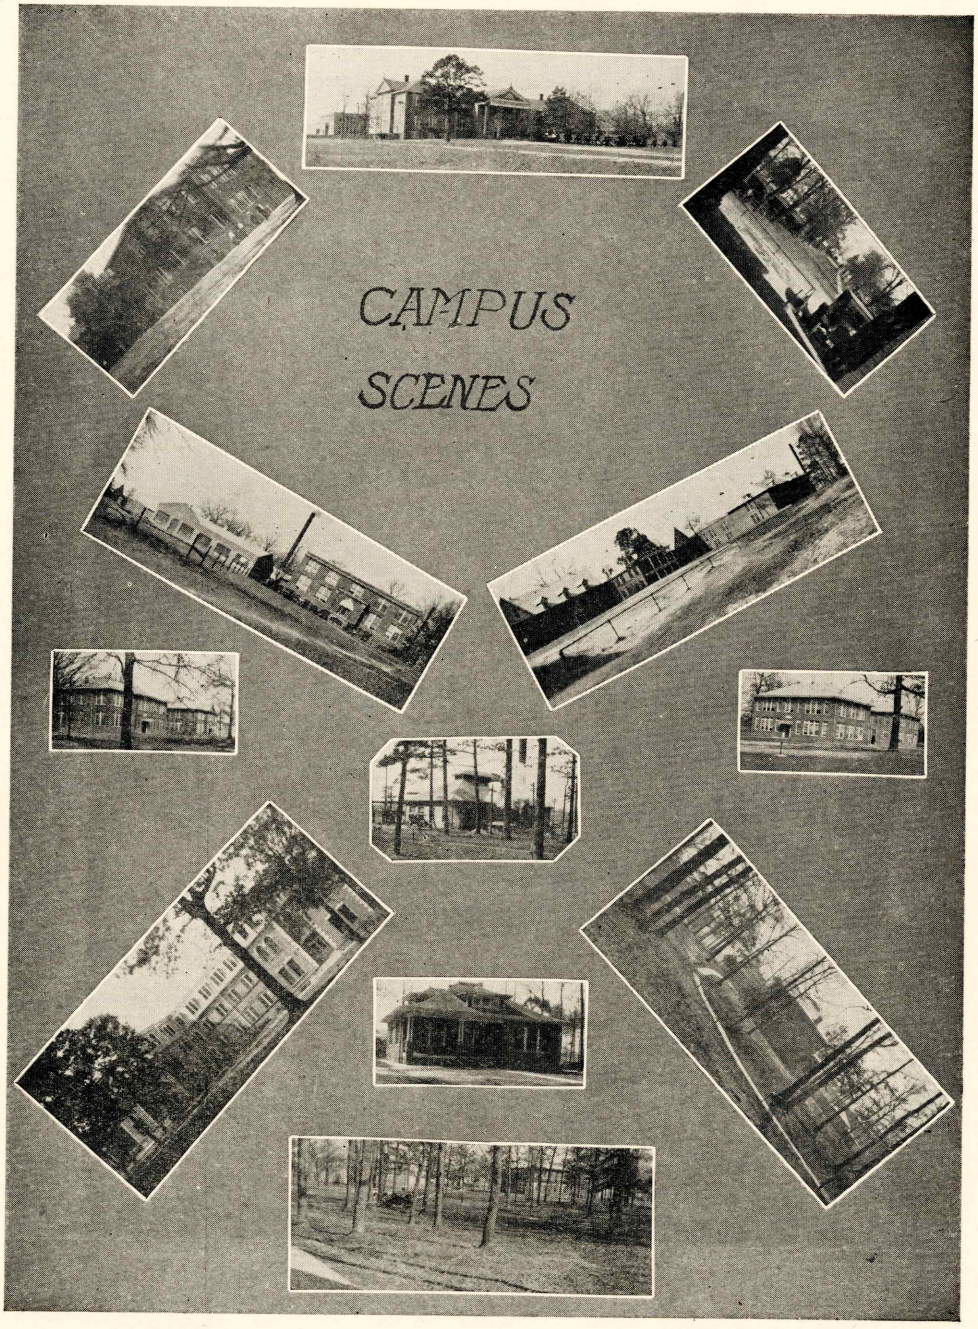

—E. L. WALKER, *President.*

CAMPUS
SCENES

The Events of the Year As They Came

SEPTEMBER

15. Everybody seems headed for Tech. Dormitories are filling up fast. Not very many "Old Heads" back yet, but there is a bountiful supply of Freshmen on hand.

16. Registered, then went in to get the term "sentence." President Keeny gave the opening address. Freshies are having the usual trouble of finding the rooms to which they are assigned for classes.

17. "Squatty" Whatley has found a Freshman that he has to "look up to." They walked into Chapel together this morning—(Yeldell).

18. Coach Arbuckle called out all of the football aspirants this afternoon. Will have almost a new team. However, it is a likable looking bunch.

20. Cap and Gown Club held its first meeting of the year. Five new members rode the goat. New Officers were elected.

25. Had first "Pep" meeting in Chapel this morning. Elected Eunice Rush and Charley Roberts cheer leaders. We are getting ready for the "Wild Cats."

OCTOBER

3. First issue of Spizz, edited by the new staff of officers, came out.

4. First football game of the season. Wild-Cats vs. Bull-Dogs. Score 0 to 0. It was "some" game. The Freshmen were there one hundred per cent strong.

5. Y. M. C. A. officers were elected. P. E. Walker, president; Robin Hood, vice president; D. B. Chapman, secretary; W. J. Austin, treasurer.

10-11-12. Tulane trip. Raised more than a little racket going down. Took a look at the "Little Old Burg" in the A. M. Game was played in the P. M. Tulane won, but her Freshmen couldn't do it. Final score was 22 to 12. The trip never will be forgotten for more reasons than one.

15. All went to the Baptist Church to see Miss Edwards sign up the life-long contract with Mr. Mac Vanhook. It was quite an affair.

18. Dallas University won 9 to 0. "Red," on the Dallas team, sure was our jinx.

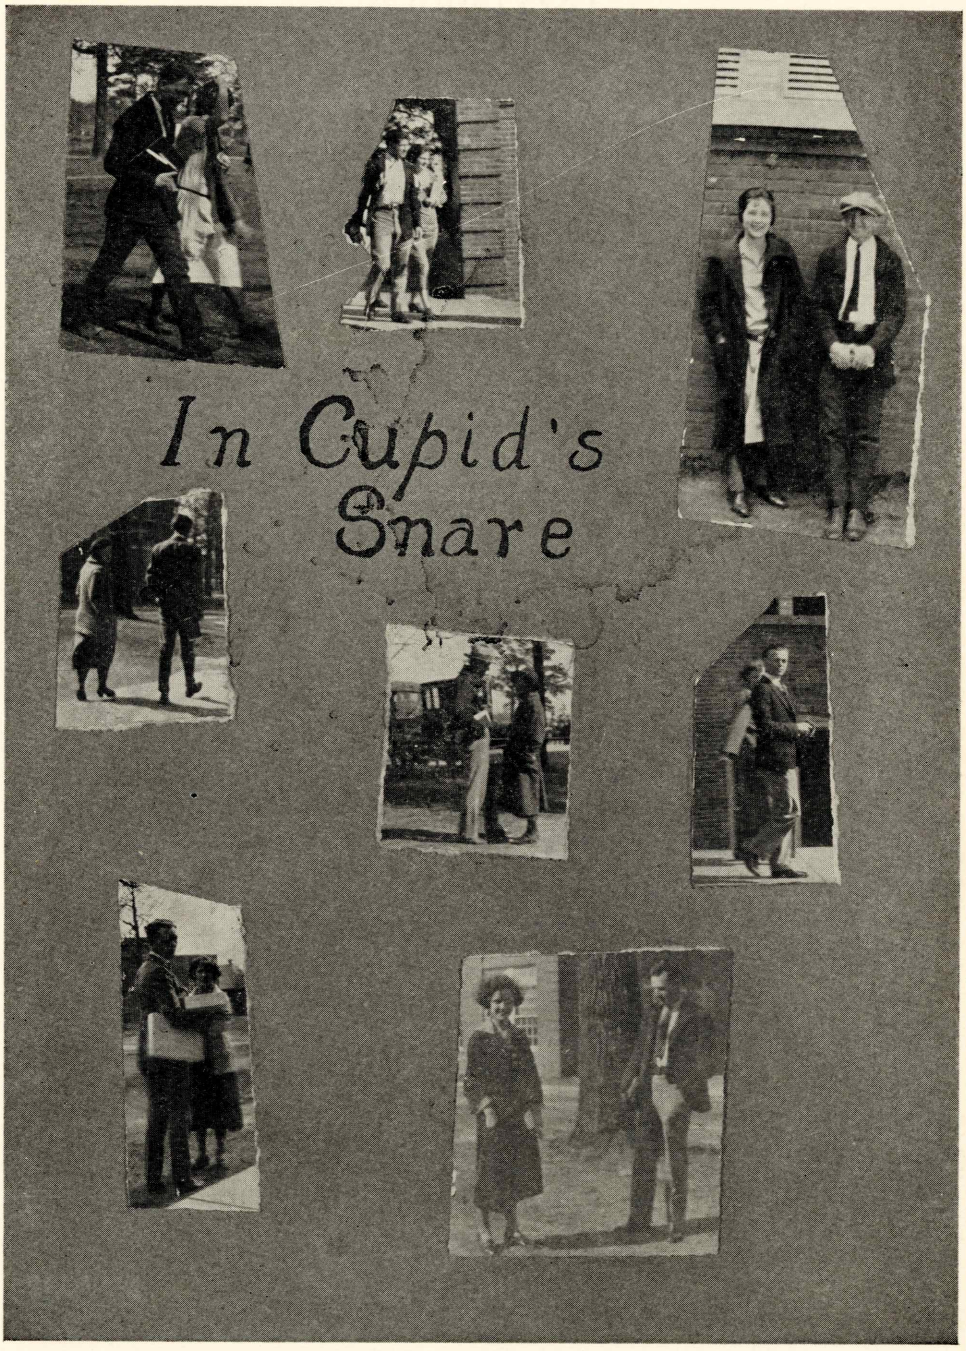

21. Dr. Sommerville spoke in Chapel. He is the first of our new faculty members to be seen on the stage. Girls, here is a bachelor worth your efforts in the way of charming.

24. Lagniappe Staff chosen. Thus opens the official '24 and '25 "Sport Season."

24-25-26. Ann Howell and Lucile Frey attend the Y. W. C. A. Convention at Natchitoches.

26. Z. A. K. and A. O. supper was held. Here's where many a chicken met its doom, and everyone present had a good time.

28. Little Rock College took a nice licking from us today. Our team played some real football.

In Cupid's
Snare

NOVEMBER

1. St. Edwards College had her hands full, but won in the end.

7-8. Baptist Student Conference at Louisiana College was attended by Misses Sutton, Key, Ware, Keyser, Johnson, and Messrs. Hood, Telford, Ware, Hooter, and McGrew, from this institution.

7. Ouachita College took great pleasure in trimming our team. They had some trouble doing it, though.

14. W. A. A. girls held circus. It was real interesting so a pair of binoculars informed some of the boys.

15. Tech locked horns with Southwestern, and lost after a tough struggle.

21. New Spizz staff elected. Savery Lewis, editor; Doc Barber, assistant editor; R. M. Baskin, business manager, and Amy Bond, humorous.

27. Loyola took sweet revenge today for the defeat given her last year by our team. She returned the defeat.

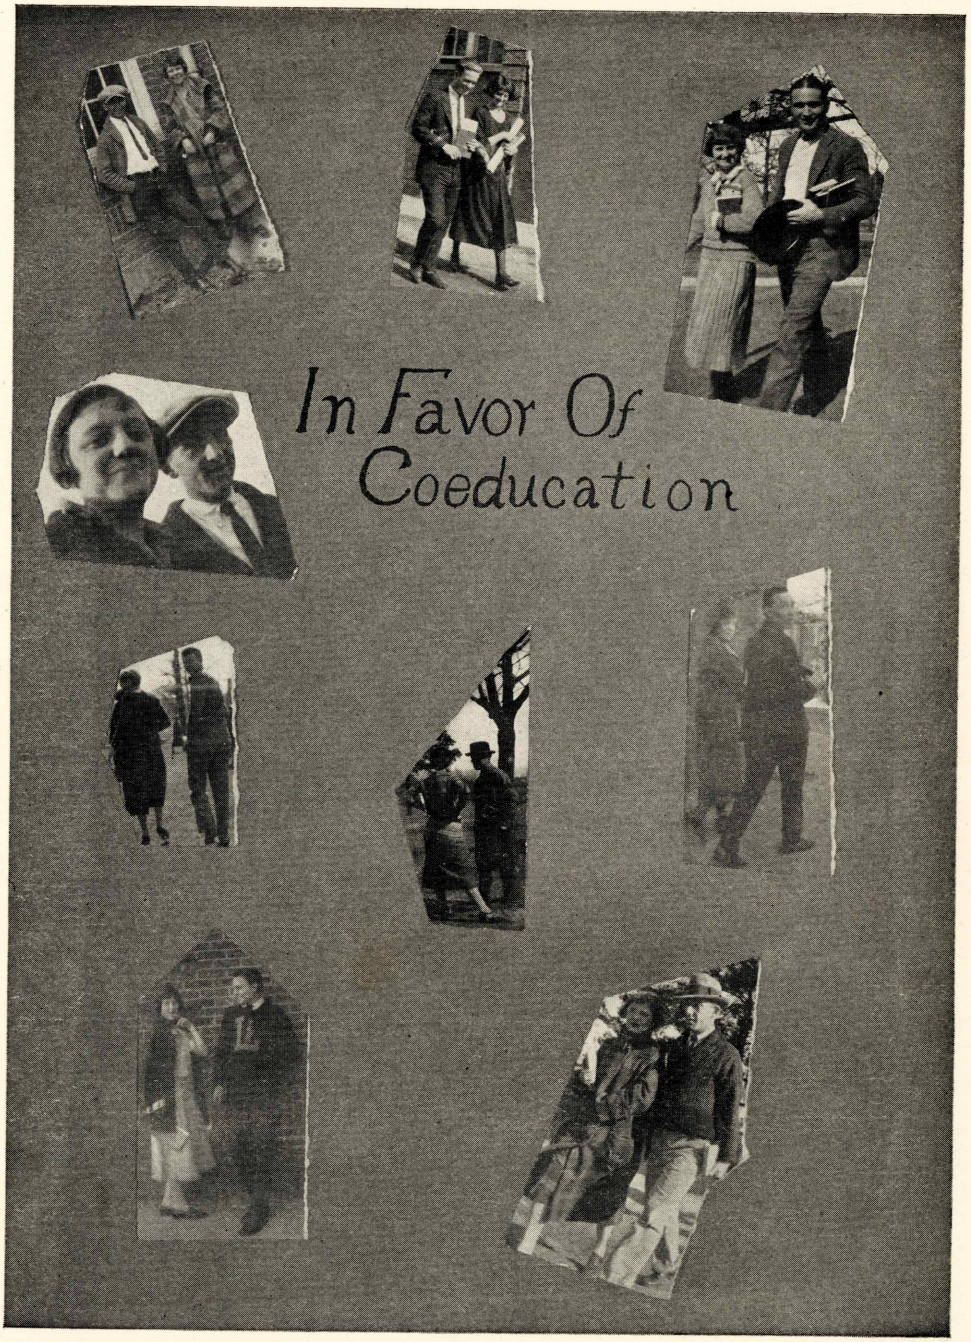

30. Senator Heflin of Mississippi entertained in Chapel. He is the kind of speaker that makes your sides hurt, and your eyes water, because of the wit and humor that is woven into the more serious and instructive side of his address.

DECEMBER

5. Senior edition of the Spizz came out. Thirty-one seniors this term. Gladys West, Paul Risinger, "Dutch" Weydert, T. M. Gaskin, and other "land marks" are leaving Tech this time.

5. Girls play their volley-ball series. Sophs are crowned champions.

7. Seniors talked in Y. M. and Y. W. Not a one of them showed signs of stage fright.

In Favor Of
Coeducation

DECEMBER

19. Home for Christmas. Eleven whole days to spend as you like. Can hardly believe it.

30. Back from vacation. Several Christmas brides sworn in. Misses Post and Milling are two of the most prominent to go astray.

Freshmen edition of Spizz was published. Freshmen names almost cover front page. The green ink set things off.

JANUARY

4. Y. W. C. A. officers elected. Annette Richardson, president; Mamie McDade, vice president; Lois Kelly, secretary; Katherine Gregg, treasurer.

8. Lagniappe staff talks in Chapel. Feature contest announced, snapshot contest opened.

12. Mr. Reese talked in Chapel on "The Psychology of a Mule."

19. Feature contest over; in fact, too close to be announced according to ballot.

24. Girls take a hike. Most of them got back all O. K. They report the best of times, and any number of—stunts.

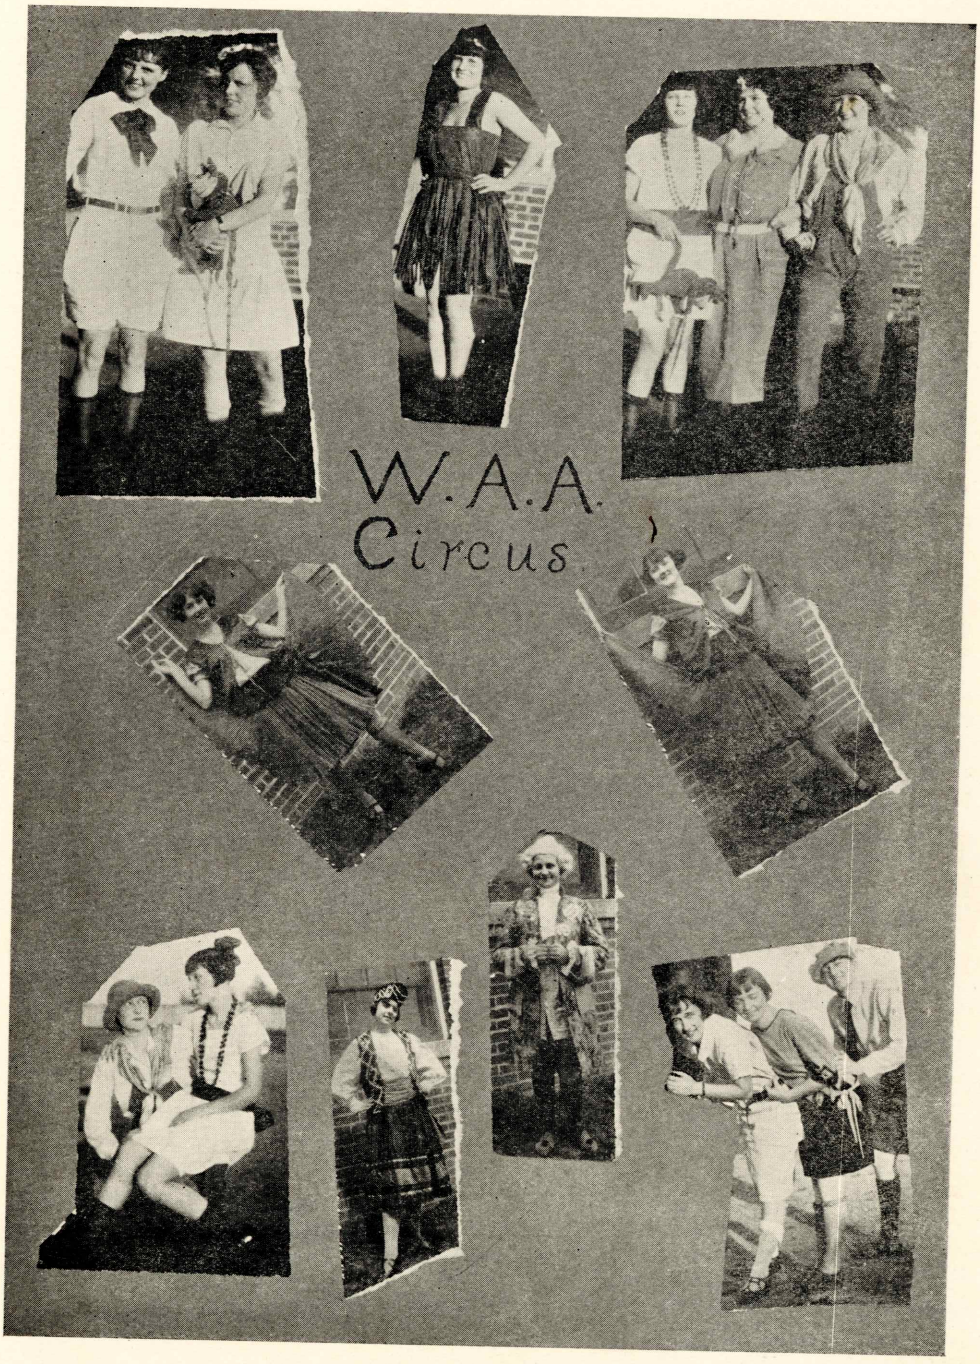

FEBRUARY

5. Y. M. C. A. Conference at Shreveport was attended by P. E. Walker, W. J. Austin, and Harry Telford.

8. Just twenty-one boys were signed up with the amount of twenty-five demerits per head. Each was guilty of the same so-called offense, and it happened on Sunday. Now, what was the offense?

12. Mental tests were given to the entire student body.

14. Boys' track meet. Some strong competition. Reed high-point man. Upper-classmen won from Freshmen by seven points.

W.A.A.
Circus

FEBRUARY

16. The Tech Orchestra got real lively in Chapel this morning.

17. Baseball practice began. Many "Greats" and "Future Greats" reported to Coach Wight.

19. Girls held basketball tournament. Freshies were forced to bow to the Sophs.

20. Extensive campaign for snapshots of "Love-Doves" being staged. Trout and Barber are sure being watched.

26. Snapshot contest closed. Edith Holt won first prize, E. Walker second prize and also the prize for the greatest number of shots handed in.

MARCH

6. Senior Reception in Home Economics building. Oh! Boy!

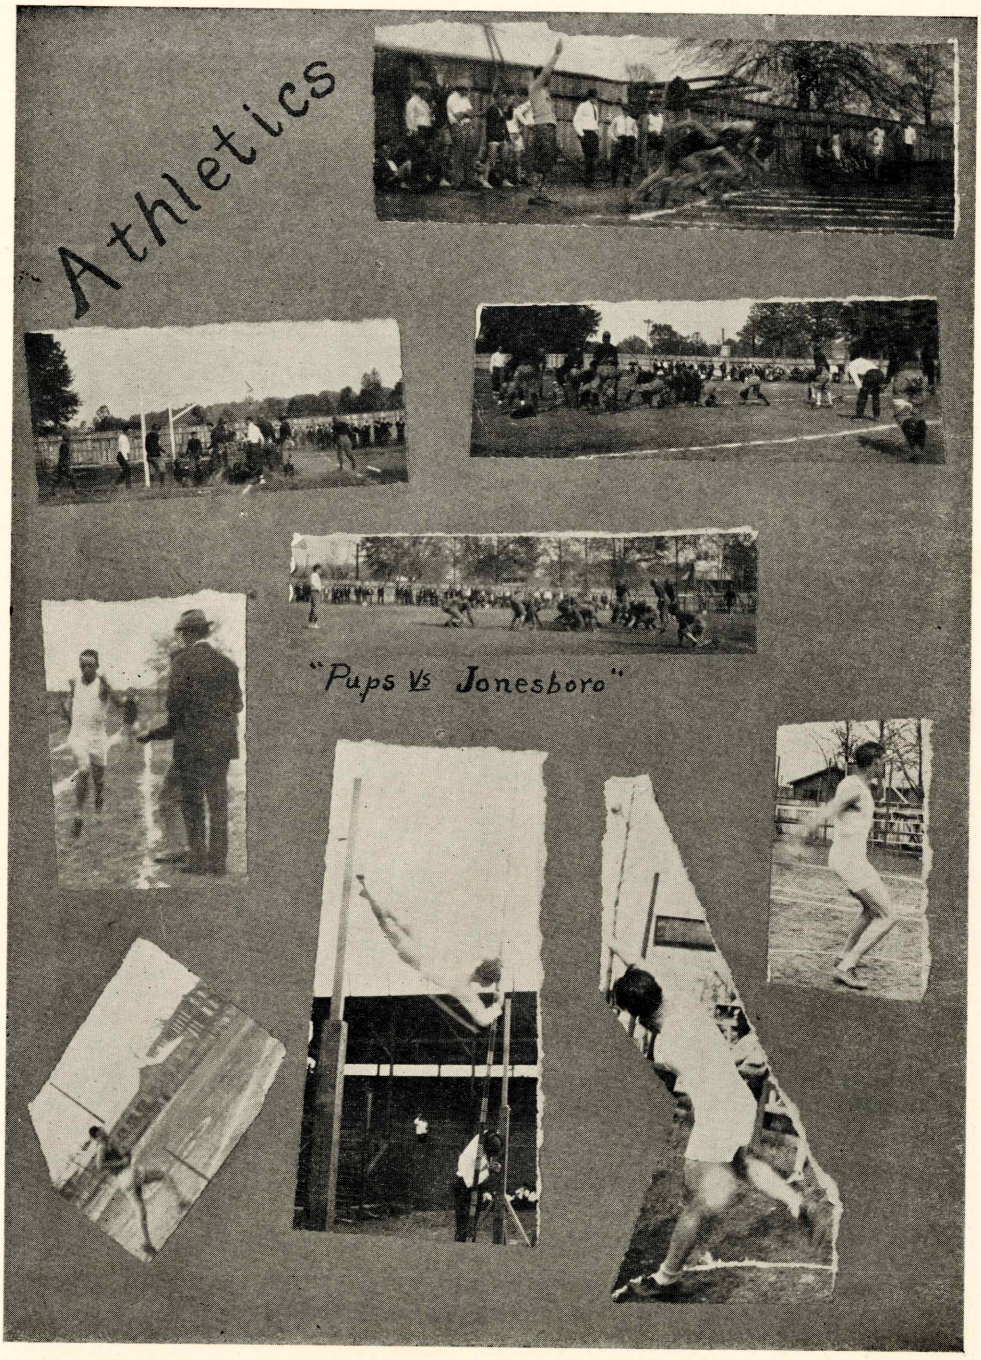

8. Y. M. C. A. officers elected for the coming year: Lamar Ratcliff, president; F. E. Childress, vice president; J. R. McGrew, secretary; D. M. Abel, treasurer; H. C. Hooter, corresponding secretary.

11. Close of Winter term. Mr. Keeny did not make his "usual" talk to the seniors. Dr. Sommerville made one for him. Mrs. Evans, Gertrude Johnson, "Phil" Elliott, J. T. Huey, and V. W. Barber were branded with degrees. Quite a few finish Junior College.

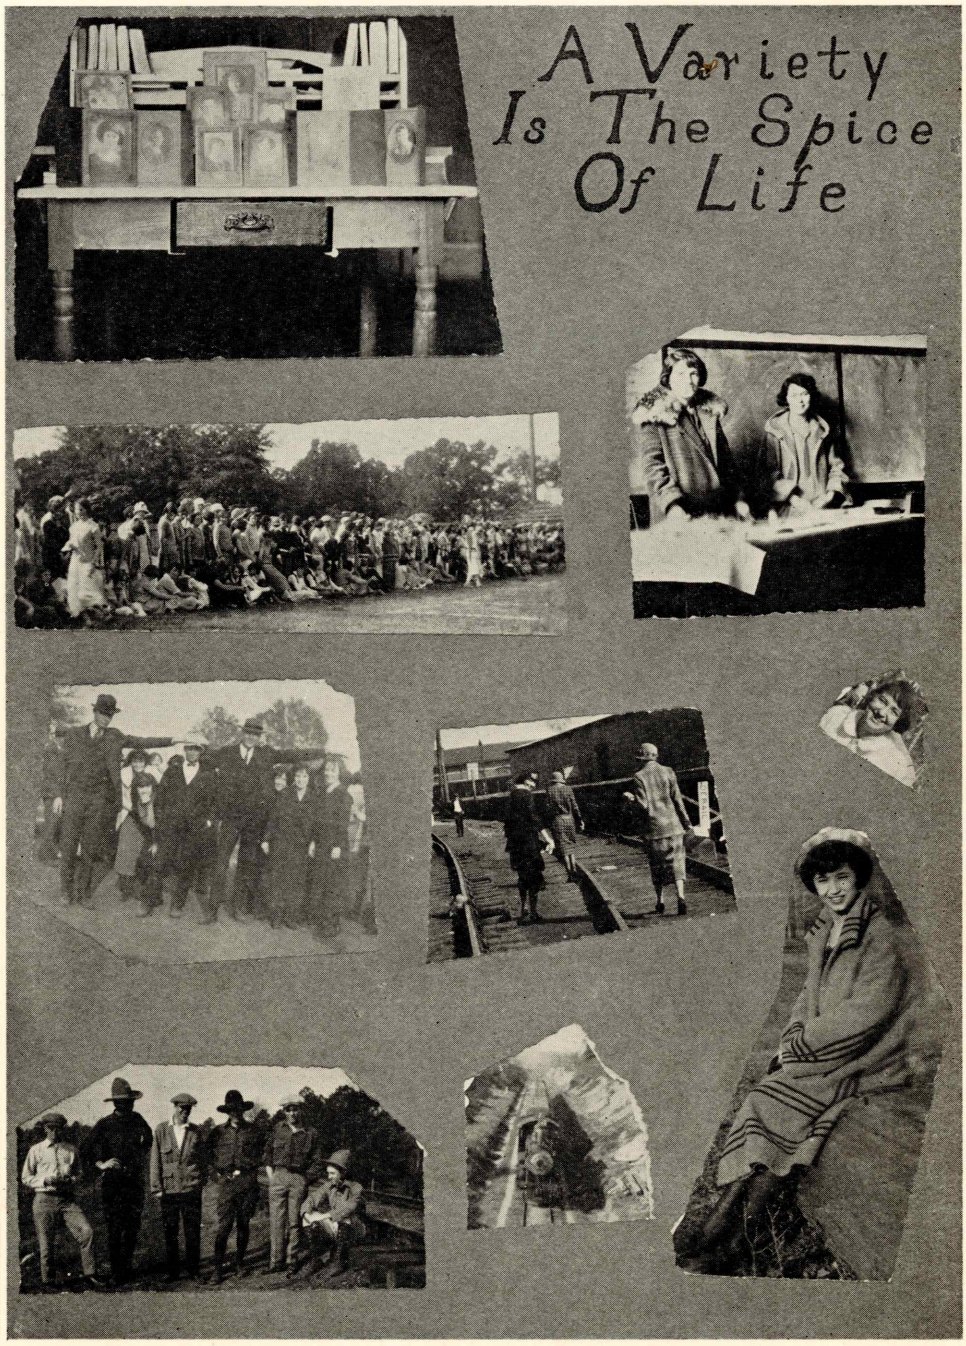

Zeta Alpha Kappa Fraternity recognized by Theta Kappa Nu as Gamma Chapter in Louisiana.

16. Alpha Omega Fraternity boys moved into their house.

17-18. The North Louisiana Rally was held at Tech. We had visitors galore.

A Flapper's Prayer

Dear God, I don't ask anything for myself; but please send mother a son-in-law.

Handle With Gloves

Franks: "I proposed to Maude, one of the Carroll sisters, last night, but she gave me the mitten."

Telford: "Where are you going now?"

Franks: "I'm going to propose to the other twin and see if I can get the mate."

Lilly Hooper: "Is my hat on straight, Red?"

Red Beck: "Quite right, my dear. Now do hurry; we're late already."

Lilly: "Well, I shall to go back, then. This isn't the sort of hat that is worn straight."

The quickest way to take the heart out of a young fellow is to introduce him to a fascinating girl.

McMullin: "Did Mr. Hale electrify the student body the other morning?"

Gus Hogue: "No, he just gassed them."

WANTED: A substantial means of protecting my "Feminine Territory" against invasion. HAROLD NORRIS.

NOTICE: Know ye all people who read this statement that Miss Trousdale has declared Jimmie Thompson the champion asker of "nonsense questions."

Bugger Boo: "Would you accept a pet monkey?"

Marguerite: "Oh, this is so sudden; I will have to ask father."

Miss Johnston: "I am tempted to give you a test."

Billy Smith: "Yield not to temptation, for yielding is sin."

WANTED: A good girl with sufficient charms to dislodge Doc Barber's Frat pin from its usual place. J. K. S.

WANTED: Any information as to how to get George Strictler to keep his eyes open when he laughs. HAZEL S.

Perhaps So

Mr. Coussons: "Mr. Bond, do you believe in evolution?"

Mr. Bond: "Yes, Mr. Coussons, I do. But when I stand around in the halls over here, I'm determined it hasn't started yet."

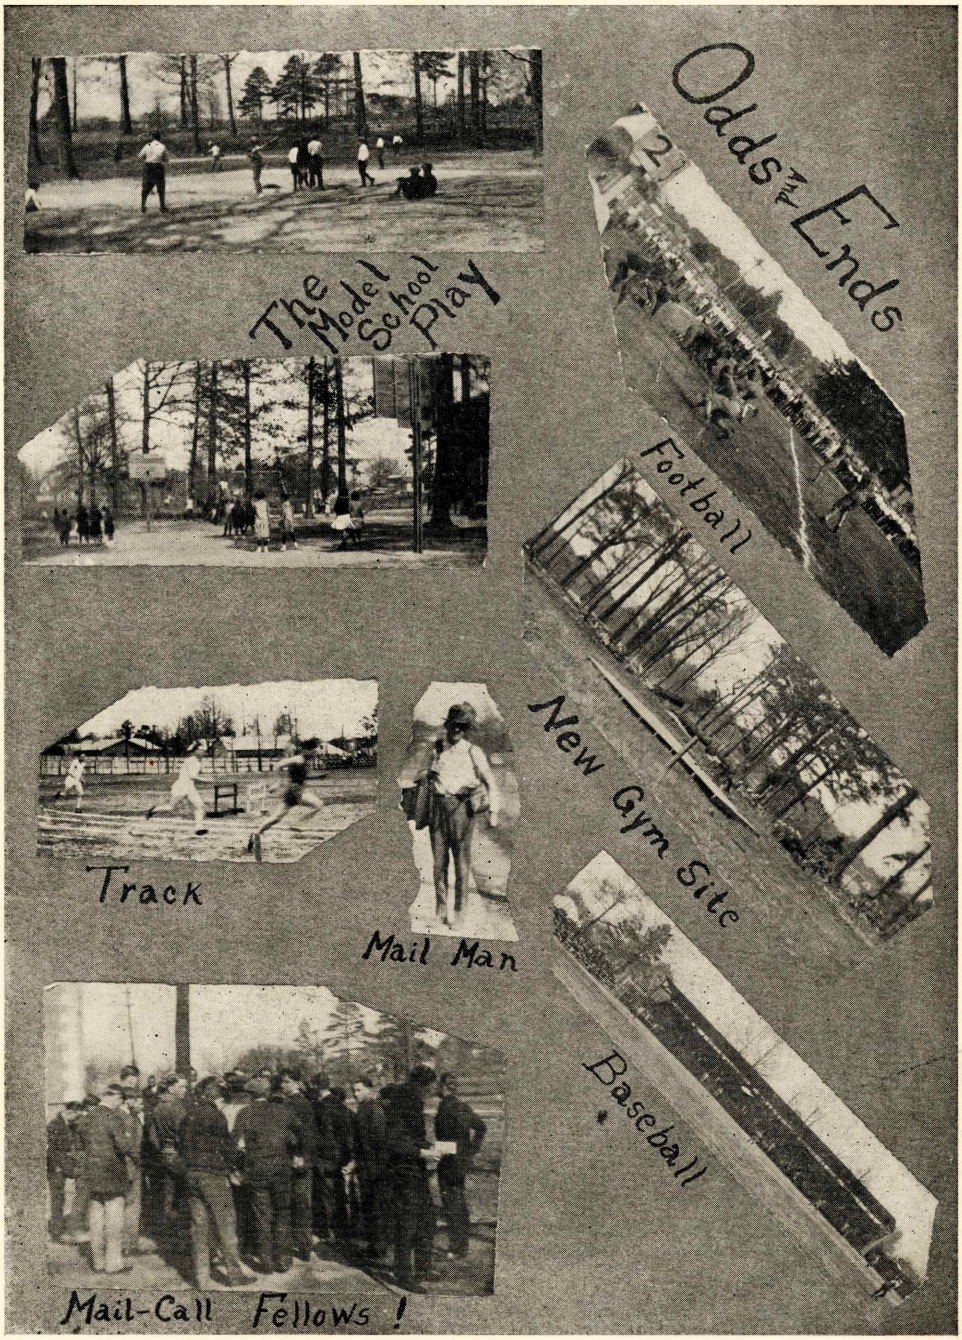

"Red" Jackson: "Young people don't burn the midnight oil over their work as we old timers did."

"Eggs" Ramsey: "No, grandpa, times have changed. Nowadays we get along faster in the dark."

Girl in a flivver,
Going like blazes;
Tickled all over
At the duts she raises.
Lets go wheel,
To fumble in purse,
To take our her powder rag:
Good night, nurse!

Koonce: "Strickler, did you take a bath this morn?"

Strickler: "No, why; is there one missing?"

Notice to Readers!

On this fourteenth day of October, the year of our Lord one thousand nine hundred and twenty-four, the Louisiana Polytechnical Institution, of the Western Hemisphere, Continent of North America, Country of United States, State of Louisiana, Parish of Lincoln, City of Ruston, in order to show the great love for its student body, did, on above date, serve said student body with baked apples.

This great occasion will never be forgotten by the old students, as this is the first time in the history of said institution that this noble feat was accomplished.

This is one of the greatest steps toward advancement of said institution that has occurred since its foundation, and it is the desire of the said student body to see their school go forward by leaps and bounds.

Gangway!

Hurry the baby as fast as you can,
Hurry him, worry him, make him a man.
Off with his baby clothes, get him in pants,
Feed him on brain foods and make him advance.

Hustle him, as soon as he's able to walk,
Into a grammar school; cram him with talk.
Fill his poor head full of figures and facts,
Keep on a-jamming them in till it cracks.

Once a boy grew up at a rational rate,
Now we develop a man while you wait.
Rush him through college, compel him to grab
Of every known subject a dip and a dab.

Get him in business and after the cash,
All by the time he can grow a moustache.
Let him forget he was ever a boy,
Make gold his god and its jingle his joy.
Keep him a-hustling and clear of breath,
Until he wins—nervous prostration and death.

Psalm of a Chemistry Student

Mr. Reese is my teacher,
I shall not pass.
He leadeth me to expose my ignorance
Before the class.
He maketh me write equations on the board
For my grade's sake.
Yea, though I study until midnight
I cannot understand Chemistry;
For equations and formulas shall trouble me.
He prepareth problems for me
In the presence of mine enemies;
He giveth me a low grade,
My work runneth under.
Surely 0's and 25's shall follow me
All the days of my life,
And I shall dwell in the book of Chemistry forever.

—A Chemistry Student.

LOUISIANA POLYTECHNIC INSTITUTE

SCHOOLS OF INSTRUCTION AND ADMINISTRATIVE ORGANIZATION

To fulfill the mission of L. P. I. as contemplated in its establishment, and to meet the growing demands for professional and technical men, industrial and academic teachers, the L. P. I. offers special two-year and four-year courses, arranging its work under the following departments or schools:

I. School of Engineering.
II. School of Home Economics.
III. School of Education or Pedagogy.
IV. School of Business or Commerce.
V. School of Applied Arts.
VI. School of Music.
VII. School of Liberal Arts and General Science.
VIII. Special Departments:
 1. Home (Correspondence) Study Courses.
 2. Group Study Courses.

Two-Year Courses

The Two-Year (Certificate) Courses are listed under the Freshman and Sophomore years, and are as follows:

I. Courses Leading to First Grade Teachers' Certificates.

1. Home Economics Course.
2. Engineering Course.
4. Pedagogy Course (Primary, Intermediate, Grammar, High, and Special Department Courses).
4. Music Course (Piano, Voice and Violin).
5. Applied Art Course.
6. Business Course.

Four-Year Courses

The Four-Year (Diploma) Courses are continuations of the Two-Year Certificate Courses and are listed under Freshman, Sophomore, Junior and Senior Years, and are listed below:

Graduates from the Four-Year Courses are granted the Bachelor's Degree (as indicated below) and are entitled to teach in any approved high school in the State; and to teach in any of the accredited schools belonging to the Association of Colleges and Secondary Schools of the Southern States.

I. Courses leading to Bachelor of Science Degree or Bachelor of Arts Degree.

1. Home Economics Course (Bachelor of Science Degree).
2. Engineering Course (Bachelor of Science Degree).
3. Business Course (Bachelor of Science Degree).
4. Pedagogy Course (Bachelor of Arts Degree).
5. Music Course (Bachelor of Arts Degree).
6. Applied Art Course (Bachelor of Arts Degree).
7. Liberal Arts Course (Bachelor of Arts Degree).
8. General Science Course (Bachelor of Science Degree).

THE SPORTSMAN'S "IF"

If you can tell the truth when all lying
About their catch of fish or brace of fowl;
If you can watch the daylight swiftly dying,
And see your empty creel and then not howl;
If you can kill a bear—a grizzly hoary
That tops the scales at mighty near a ton—
And close your mouth and never tell the story,
When other men are telling what they've done;

If you can lie beneath your trusty jitney
With oil and carbon roosting in your hair,
And hear the question, "Are you having trouble?"
And never swear a solitary swear;
If you can make your bed on solid boulders
And smile, when gray dawn makes you early rise
With tired limbs, swollen feet, and aching shoulders,
And ashes lodged securely in your eyes;

If you can spend the long, hot day a-fishing,
And fight mosquitoes till you think you'll die,
Then have a twenty-pounder break your leader,
And not decide to sit right down and cry;
If you can look me squarely in the optics
And say you do these things and do them well,
Then you're a freak, a liar and a scoundrel;
You're not a human; you belong in—a side show.

Why Live in Ruston?

BECAUSE—

Education: A child can enter the first grade in primary school and go through to a college degree.

Health: Located in the uplands of Louisiana with water 99% pure, assures health, the greatest of all treasures.

Churches: A church-going town with all the principal protestant denominations, with arrangements being perfected to enlarge their facilities.

Highways: Junction Pershing Highway, north and south, and Dixie Overland, east and west, together with two large systems of railways, make it the logical gateway to all North Louisiana.

Resources: It is true we have oil, but place good citizenship, dairying agriculture, poultry, schools and unexcelled opportunities for development, first.
